Appendix A. Glossary

This glossary has four sections: Characteristics, expenditures, income and personal taxes, and other financial information.

**Characteristics**

*Age.* The age of the reference person.

*Composition of consumer unit.* The classification of interview families according to: (1) relationship of other family members to the reference person; (2) age of the children of the reference person; and (3) combination of relationship to the reference person and age of the children. Stepchildren and adopted children are included with the reference person’s own children.

*Consumer unit.* A consumer unit comprises either: (1) all members of a particular household who are related by blood, marriage, adoption, or other legal arrangements; (2) a person living alone or sharing a household with others or living as a roomer in a private home or lodging house or in permanent living quarters in a hotel or motel, but who is financially independent; or (3) two or more persons living together who use their income to make joint expenditure decisions. Financial independence is determined by the three major expense categories: Housing, food, and other living expenses. To be considered financially independent, at least two of the three major expense categories have to be provided entirely, or in part, by the respondent.

*Core Based Statistical Areas (CBSAs).* The general concept of a CBSA is one of a county or small group of counties containing at least one urban “core” of 10,000 or more people, which includes the adjacent counties that have a high degree of economic and social integration with the area’s core. There are two types of CBSAs: Metropolitan CBSAs have at least one urban area of 50,000 or more people; Micropolitan CBSAs are centered around an urban area with 10,000-50,000 people.

*Earner.* A consumer unit member, 14 years of age or older, who reported having worked at least 1 week during the 12 months prior to the interview date.

*Education of reference person.* The number of years of formal education of the reference person, on the basis of the highest grade completed. If enrolled at time of the interview, the interviewer records the grade currently attended. Persons not reporting the extent of their education are classified under no school or not reported.

*Housing tenure.* The family’s principal place of residence during the survey. Owner includes families living in their own homes, cooperatives or condominium apartments, or townhouses. Renter includes families paying rent, as well as families living rent-free in lieu of wages.

*Income before taxes.* Total money earnings and selected money receipts during the 12 months prior to the interview date. (See section 3 of the glossary for a complete definition of the components.)

*Income after taxes.* Income before taxes less personal taxes, which include Federal, State, and local income taxes and other taxes. (See section 3 of the glossary for a complete definition of the components.)

*Lower limit.* Amount of income before taxes of the lowest-ranked consumer unit in each income quintile.

*Metropolitan Statistical Areas (MSAs).* The general concept of an MSA is one of a large population nucleus, together with adjacent communities that have a high degree of economic and social integration with that nucleus. The Office of Management and Budget defines the term as a standard for Federal agencies in the preparation and publication of statistics relating to metropolitan areas.

*Number of vehicles owned or leased.* Number of automobiles, trucks, vans, campers, motorcycles, trailers, and planes owned or leased by members of the consumer unit, including vehicles used partially for business, but excluding those used entirely for business.

*Occupation.* Refers to the occupation in which the reference person received the most earnings during the survey period. The occupational categories follow those of the Census of Population. Categories shown in the reference tables include the following:

*Self-employed*—encompasses all occupational categories; the reference person is self-employed in own business, professional practice, or farm.
Wage and salary earners:

Managers and professionals—executives, administrators, and managers; and professional specialties, including architects, engineers, natural and social scientists, lawyers, teachers, writers, health diagnosis and treatment workers, entertainers, and athletes.

Technical, sales, and clerical workers—technicians and related support workers; sales representatives, sales workers, cashiers, and sales-related occupations; and administrative support, including clerical.

Service workers—private household workers, protective services, food preparers, health services, cleaning and building services, and personal service occupations.

Precision production, craft, and repair workers—mechanics and repairers, construction trades, extractive occupations, and precision production occupations.

Operators, fabricators, and laborers—machine operators and assemblers, transportation workers, handlers and laborers, and farming, forestry, and fishery workers.

Retired—retired persons who did not work either full- or part-time during the survey period.

All others, including not reporting—a residual including unemployed persons; those working without pay; those not working due to illness, going to school, or caring for others; and those not reporting their occupational status.

Population. Total civilian noninstitutional population of the United States, as well as that portion of the institutional population living in the following group quarters: Boarding houses; housing facilities for students and workers; staff units in hospitals and homes for the aged, infirm, or needy; permanent living quarters in hotels and motels; and mobile home parks. Excluded are military personnel living on military bases and nursing home residents.

Quintiles of income before taxes. For each time period represented in the tables, consumer units are ranked in ascending order, according to the level of total before-tax income reported by the consumer unit. The ranking is then divided into five equal groups.

Race. Race of the reference person of the consumer unit. Families are included in three racial groups: Black or African-American; Asian; and White and All Other Races. The “All Other Races” group comprises such races as Native Americans, Alaskan Natives, Pacific Islanders, and those reporting more than one race.

Reference person. The first member mentioned by the respondent when asked to, “Start with the name of the person or one of the persons who owns or rents the home.” It is with respect to this person that the relationship of the other consumer unit members is determined.

Regions. Data are presented for four major regions: Northeast, Midwest, South, and West. Consumer units are classified by region, according to the address at which the family was residing during the time of their participation in the survey. The regions comprise the following States:

Midwest—Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, and Wisconsin.

South—Alabama, Arkansas, Delaware, District of Columbia, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, Virginia, and West Virginia.

Rural population. All persons living outside a Metropolitan Statistical Area (MSA) and within an area with a population of less than 2,500 persons. See the definition for urban population below.

Size of the consumer unit. Number of persons whose usual place of residence at the time of the interview is in the sample unit.

Urban population. All persons living in Metropolitan Statistical Areas (MSAs) and in urbanized areas and urban places of 2,500 or more persons outside of MSAs. Urban, as defined in this survey, includes the rural populations within an MSA.

Expenditures

Expenditures consist of the transaction costs, including excise and sales taxes, of goods and services acquired during the interview or recordkeeping period. Expenditure estimates include expenditures for gifts, but exclude purchases or portions of purchases directly assignable to business purposes. Also excluded are periodic credit or installment payments on goods or services already acquired. The full cost of each purchase is recorded, even though full payment may not have been made at the date of purchase. The order of the expenditures listed here follows the order of presentation in the reference tables.

Income and Personal Taxes

Income

Income is the combined income of all consumer unit members (14 years of age or older) during the 12 months preceding the interview. Components of income are described below. The order of the definitions of income and personal taxes follows the order of presentation in the reference tables.

For a definition of quintiles of income, see the section on characteristics at the beginning of this glossary.

Money income before taxes is the total money earnings and selected money receipts during the 12 months prior to the interview date. Money income includes the following components:

Wages and salaries includes total money earnings of all consumer unit members (14 years of age and older) from all jobs, including civilian wages and salaries; Armed Forces pay and allowances; piece-rate payments; commissions; tips; National Guard or Reserve pay (received for training periods); and cash bonuses before deductions for taxes, pensions, union dues, etc.

Self-employment income includes net business and farm income, which consists of net income (gross receipts minus operating expenses) from a profession or unincorporated business or from the operation of a farm by an owner, tenant, or sharecropper. If the business or farm is a partnership, only an appropriate share of net income is recorded. Losses are also recorded.

Social Security, private and government retirement includes the following: (1) payments by the Federal Government made under retirement, survivors,’ and disability insurance programs to retired persons, dependents of deceased insured workers, or disabled workers and (2) private pensions or retirement benefits received by retired persons (or their survivors), either directly or through an insurance company.

Interest, dividends, rental income, and other property income includes interest income on savings or bonds; payments made by a corporation to its stockholders; periodic receipts from estates or trust funds; net income or loss from the rental of property, real estate, or farms; and net income or loss from roomers or boarders.
Unemployment and workers’ compensation and veterans’ benefits includes income from unemployment compensation and workers’ compensation and veterans’ payments, including educational benefits but excluding military retirement.

Public assistance, supplemental security income, and food stamps includes public assistance or welfare, including money received from job training grants; supplemental security income paid by Federal, State, and local welfare agencies to low-income persons who are age 65 or over, blind, or disabled; and the value of food stamps obtained.

Regular contributions for support includes alimony and child support, as well as any regular contributions from persons outside the consumer unit.

Other income includes money income from care of foster children, cash scholarships, fellowships, or stipends not based on working and meals or rent as pay.

Personal taxes
Federal income taxes includes Federal income taxes withheld in the survey year to pay for income earned in that survey year, plus additional taxes paid in the survey year to cover any underpayment or underwithholding of taxes in the year prior to the survey.

State and local income taxes includes State and local income taxes withheld in the survey year to pay on income earned in the survey year, plus additional taxes paid in the survey year to cover any underpayment or underwithholding of taxes in the year prior to the survey.

Other taxes includes personal property and other personal taxes paid.

Other financial information
These items are not part of expenditures or income. They are provided for additional information.

Net change in assets includes changes in savings and checking accounts; purchases of securities (stocks, bonds, or mutual funds) in the year which they were held to the end of the year; sales of securities which were purchased in a prior year; changes in the balances of money owed to the consumer unit; sales and purchases and repairs and improvements to own dwelling occupied by the consumer unit; vacation home, recreational property, unimproved land and other property owned by the consumer unit; changes in investments in unincorporated family businesses and farms; amounts received or reimbursements from the sale of vehicles; principal amounts of trust held on own dwelling, vacation home, and other properties owned by the consumer unit; and surrender of insurance policies. (This value has a positive or negative sign to indicate increases or decreases in assets.)

Net change in liabilities includes changes in mortgage principal on own dwelling occupied by the consumer unit, vacation home, recreational property, unimproved land and other property owned by the consumer unit; payments of mortgage interest due before either survey year of the survey period; money owed on purchases of cars, trucks, and other vehicles; and money owed to other creditors, such as department stores, banks, credit unions, finance companies, insurance companies, doctors, dentists, and other medical practitioners. This value has a positive or negative sign to indicate increases or decreases in liabilities.

Other money receipts includes lump-sum payments from estates or trusts, insurance, money from sale of house furnishings, refunds from overpayment on Social Security, refunds from insurance policies, and refunds from property taxes.

Mortgage principal paid on owned property includes the reduction of mortgage principal on a mortgage or home equity loan for a home or any other property. (This is not included in homeowner costs but is repayment of a loan.)

Estimated market value of owned home is the approximate value of the property in the current market.

Estimated monthly rental value of owned home is the approximate monthly rental value of the property in the current market.

Gifts of goods and services includes gift expenditures for persons outside the consumer unit. These items have already been defined in the Expenditures section. Their values are given, so they can be subtracted from the expenditure totals, if the value of consumption within the household is desired.
