

Changes between 2003 - 2010 Data Files:

American Time Use Survey (ATUS)

November 2011

The American Time Use Survey (ATUS) is sponsored by the Bureau of Labor Statistics and conducted by the U.S. Census Bureau.

## Changes between 2003 - 2010 ATUS Data Files

Changes to survey design, sampling, weighting, variable definitions, imputation, and other methodology can have serious implications for interpretation of results. The purpose of this document is to detail any such changes made to ATUS survey methods and data files from 2003 to 2010. Only years for which changes were made are listed.

### 1. Sample Reduction

**2004:** The monthly sample was reduced by 35 percent beginning with the sample introduced in December 2003. Because of the reduction, there were fewer completed interviews in the years after 2003 than there were in 2003. For example, there were 13,973 completed interviews in 2004 compared to 20,720 interviews in 2003. Since the sample reduction was introduced in December 2003, the first few months in 2004 have a greater number of completed interviews than later months.

**2005:** There was no sample reduction between 2004 and 2005, but 2004 had a greater number of completed interviews in the first few months of 2004 than in 2005 because of the sample reduction introduced in December 2003. The 2005 completed interviews are more evenly distributed across months.

For more information, see the ATUS User's Guide ([www.bls.gov/tus/atususersguide.pdf](http://www.bls.gov/tus/atususersguide.pdf)).

### 2. Questionnaire Changes

**2004:** Minor changes to survey questions were introduced in ATUS in October 2003. More detailed secondary childcare questions were asked about own household children, own nonhousehold children, and non-own household children. Also, a new question about eating was introduced. Respondents who did not report eating or drinking on their diary day are asked, "Did you do any eating or drinking yesterday as your main activity?"

**2006:** A five-minute Eating & Health (EH) module was introduced in January 2006. This module included questions related to eating, meal preparation, and health, all of which were asked after completion of the ATUS questions. This module was fielded from 2006-2008.

For more information, see the ATUS Questionnaire ([www.bls.gov/tus/tuquestionnaire.pdf](http://www.bls.gov/tus/tuquestionnaire.pdf)) and the ATUS Eating & Health Module Questionnaire ([www.bls.gov/tus/ehmquestionnaire.pdf](http://www.bls.gov/tus/ehmquestionnaire.pdf)).

**2009:** No modules were conducted in 2009.

**2010:** Minor changes to survey questions were introduced in ATUS in January 2010. New options were added to the question which asks who the respondent was with while he or she was doing the activity. The ATUS also began collecting this information for times when respondents reported they had been working. For more information, see the 2010 ATUS Interview Data Dictionary: [www.bls.gov/tus/atusintcodebk10.pdf](http://www.bls.gov/tus/atusintcodebk10.pdf).

A five-minute Well-Being (WB) module was introduced in January 2010. This module used the ATUS diary to capture how people felt during selected activities. Respondents also were asked a few questions about their general health. This module was fielded through December 2010. For more information, see the ATUS Well-Being Questionnaire ([www.bls.gov/tus/wbmquestionnaire.pdf](http://www.bls.gov/tus/wbmquestionnaire.pdf)).

### 3. Weighting Changes

There were no changes in the method used to generate statistical weights (the variable TUFINLWGT) on the ATUS data files from 2006 to 2010. However, the method used to generate the weighting variable TUFINLWGT on the ATUS files changed each year from 2003 to 2006. Thus, researchers who create multi-year data sets using the single-year data files should not use the weighting variable TUFINLWGT for all years.

Users who combine multiple years of ATUS data must use weights that were generated using comparable methods. TU06FWGT is a weighting variable that was generated using the 2006 weighting method. Users who combine ATUS data for the years 2003 to 2010 should use the variable TU06FWGT to weight the 2003 to 2005 data and the variable TUFINLWGT to weight the 2006 through 2010 data.

The variables TU04FWGT (on the 2003 files) and TUFINLWGT on the 2004 and 2005 files also were generated using comparable weighting methods. Researchers who combine the 2003 to 2005 data files can use this combination of weighting variables or the variable TU06FWGT for all years. (Note that while the method used to generate TUFINLWGT changed from 2004 to 2005, the difference in methods is slight and has little impact on estimates.)

For more information, see the ATUS User's Guide ([www.bls.gov/tus/atususersguide.pdf](http://www.bls.gov/tus/atususersguide.pdf)).

### 4. Public Use ATUS Files

Public use ATUS files are released every year. The following table lists the availability of files by year.

	2003	2004	2005	2006	2007	2008	2009	2010
<b>Basic ATUS data files</b>								
Respondent file	x	x	x	x	x	x	x	x
Roster file	x	x	x	x	x	x	x	x
Activity file	x	x	x	x	x	x	x	x
Who file	x	x	x	x	x	x	x	x
ATUS-CPS file	x	x	x	x	x	x	x	x
Activity Summary file	x	x	x	x	x	x	x	x
<b>Additional ATUS data files</b>								
Case History file	x	x	x	x	x	x	x	x
Call History file		x	x	x	x	x	x	x
Trips file			x	x	x	x	x	x
Replicate Weights file	x	x	x	x	x	x	x	x

	2003	2004	2005	2006	2007	2008	2009	2010
<b>ATUS Module data files</b>								
<b>ATUS Eating &amp; Health Module</b>								
EH Respondent file				X	X	X		
EH Child file				X	X	X		
EH Activity file				X	X	X		
EH Replicate Weights file				X	X	X		
<b>ATUS Well-Being Module</b>								
WB Respondent file								X
WB Activity file								X
Replicate Weights for WB Respondent file								X
Replicate Weights for WB Activity file								X

## 5. ATUS Coding Lexicon Changes

**2004:** There are minor differences between the 2003 and 2004 Coding Lexicons. Some activity codes were added and others deleted.

**2005:** The first-tier code for travel was changed from TUTIER1CODE = 17 to TUTIER1CODE = 18. There were also some minor differences between 2004 and 2005 Coding Lexicons.

**2006:** There are minor differences between the 2005 and 2006 Coding Lexicons.

**2007:** There are minor differences between the 2006 and 2007 Coding Lexicons.

**2008:** There are minor differences between the 2007 and 2008 Coding Lexicons.

**2008-10:** There were no changes to the 2008 through 2010 Coding Lexicons.

For more information, see [www.bls.gov/tus/lexiconchanges.pdf](http://www.bls.gov/tus/lexiconchanges.pdf).

## 6. Linking ATUS to CPS

**2004:** Because of May 2004 changes to the CPS file format, the method used to link ATUS files to CPS files is different for those cases whose final CPS interview occurred after May 2004. For additional details, see the 2004 ATUS-CPS data dictionary ([www.bls.gov/tus/atuscpscodebk04.pdf](http://www.bls.gov/tus/atuscpscodebk04.pdf)).

Please see Appendix K of the ATUS User's Guide for more detailed information about how to link CPS files to ATUS files ([www.bls.gov/tus/atususersguide.pdf](http://www.bls.gov/tus/atususersguide.pdf)).

## **7. Data Collection System**

**2005:** In April 2005, ATUS migrated to the Census Bureau's new standardized computer system for managing telephone interviews. The case and call outcome codes and the outcome assignment methodology are slightly different between the old and new systems. Thus, 2003 and 2004 case and call outcome codes are different from those used in 2005 to 2010.

For more information, see the 2005 Survey Methodology data dictionary: [www.bls.gov/tus/atussmcodebk05.pdf](http://www.bls.gov/tus/atussmcodebk05.pdf).

Changes to Variables, 2003 – 2010									
Variable		2003	2004	2005	2006	2007	2008	2009	2010
<b>Respondent file</b>									
TEIO1ICD	TEIO1ICD: Edited: industry code (main job) <b>2010:</b> Beginning in January 2010 ATUS, industry data were classified using the 2007 Census Industry classification system. This system replaced the 2002 Census Industry Classification system. Cases with [TUYEAR < 2010] have industry data classified using the 2002 Census Industry Classification System. All other cases with [TUYEAR > 2009] have industry data classified using the 2007 Census Industry Classification system.	On file	On file	On file	On file	On file	On file	On file	Values changed
