

## Consumer Expenditure Surveys Interview Questionnaire (CEQ) – April 2023 – March 2024

Computer Assisted Personal Interviewing (CAPI) - Instrument Specifications

### Introduction

This document provides data users with the questions asked of respondents in the April 2023 through March 2024 Consumer Expenditure Interview Questionnaire (CEQ). It is organized by questionnaire section and includes variable names, question text, response options, and skip instructions. As the contents of this document are instrument specifications, which show the organization of the survey from the perspective of the person interviewing the respondent, some content, including interviewer help options, icons, and CAPI-specific language, may not be relevant to data users.

CARI is handled at the "Session level". A session refers to one time into and out of a case. As we know, FRs enter in and leave cases multiple times.

Session Scenario

CARI Files Result

CARI Consent = No for entire session  
No CARI files produced

CARI Consent = Yes for entire session

CARI Files produced (if conditions met)

Initial Consent = "No", Later changed to "Yes" No CARI files produced for questions asked when consent = No.

CARI files produced for questions asked when Consent = Yes

(if conditions met).

Initial Consent = "Yes", Later changed to "No" No CARI files are produced for this session.

The Blaise software "sees" Consent = "No" and will not

create final sound/"image" files for anything that may

have been previously captured in session. The is not

something the Authoring team programmed. This is the

behavior. The thinking is respondent changed mind and

therefore no recording should be kept.

First Session, Consent = Yes, 2nd session Consent = No Files are created and saved for first session.

-------	----------------	------------	---	------------------------

**Data from the Consumer Expenditure Survey are used in a number of different ways by a variety of users. An important use of the survey by the Bureau of Labor Statistics is for the periodic revisions of the Consumer Price Index (CPI). Survey results are used to select new market basket of goods and services for the CPI, to determine the relative importance of CPI components and to derive new cost weights for the market basket. Government and private agencies use the data to study the welfare of particular segments of the population. Economic policymakers use the data to study the impact of policy changes in the welfare of different socioeconomic groups. Researchers use the data in a variety of studies, including those that focus on the spending behavior of different family types and historical spending trends.**

-------	----------------	------------	---	------------------------

**Data collection is carried out by the Bureau of the Census. In the Interview Survey, each consumer unit is interviewed every 3 months over 4 calendar quarters. In the initial interview, information is collected on demographic and family characteristics. Expenditure information is then collected over four quarterly interviews using uniform questionnaires. In the fourth interview, a supplement is used to account for changes in assets and liabilities.**

**The Bureau of Labor Statistics conducts the Consumer Expenditure Survey under the authority of Title 29 of the U.S. Code. Congress authorizes the financial support for the CE survey through Public Laws 94-439 and 95-205. The Bureau of the Census collects the CE data under the authority of Title 13, U.S. Code, Section 8b, which allows the Census Bureau to undertake surveys for other government agencies. Participation in the survey is voluntary. Under Title 13, the Census Bureau holds all information in strict confidence. We will not release information reported in the survey which would permit the identification of a household or any of its members to anyone outside of the Census Bureau.**
