TABLE L106. Incidence rates<sup>1</sup> for nonfatal occupational injuries and illnesses involving days away from work<sup>2</sup> per 10,000 full-time workers by part of body affected by the injury or illness and summary occupational groups, local government, 2009 — Continued

| Part of body                     | Part of body code <sup>3</sup> | Local government <sup>4</sup> | Summary occupational groups                     |                                      |                     |                               |   |  |   |   |                        |  |
|----------------------------------|--------------------------------|-------------------------------|---|--------------------------------------|---------------------|-------------------------------|---|--|---|---|------------------------|--|
|                                  |                                |                               | Management, business, and financial occupations | Professional and related occupations | Service occupations | Sales and related occupations | Office and administrative support occupations | Farming, fishing, and forestry occupations | Construction and extraction occupations | Installation, maintenance, and repair occupations | Production occupations | Transportation and material moving occupations |
| <b>Multiple body parts</b> ..... | 8                              | 30.5                          | 9.5   | 13.8                                 | 70.8                | 19.6                          | 15.0  | 33.0                                       | 62.8                                    | 27.3  | 57.7                   | 77.2   |
| <b>Nonclassifiable</b> .....     | 9999                           | 2.1                           | —   | .4                                   | 2.9                 | —                             | .1  | —  | 2.6                                     | —   | —                      | 1.9  |

<sup>1</sup> Incidence rates represent the number of injuries and illnesses per 10,000 full-time workers and were calculated as:  $(N/EH) \times 20,000,000$  where

N = number of injuries and illnesses  
 EH = total hours worked by all employees during the calendar year

20,000,000 = base for 10,000 equivalent full-time workers (working 40 hours per week, 50 weeks per year)

<sup>2</sup> Days-away-from-work cases include those that resulted in days away from work, some of which

also included job transfer or restriction.

<sup>3</sup> Based on the Occupational Injury and Illness Classification System developed by the Bureau of Labor Statistics.

<sup>4</sup> Excludes farms with fewer than 11 employees.

<sup>5</sup> Data too small to be displayed.

NOTE: Dash indicates data do not meet publication guidelines. Because of rounding and data exclusion of nonclassifiable responses, data may not sum to the totals.
