

Georgia: Price Movements of Top Exports and Other Highlights

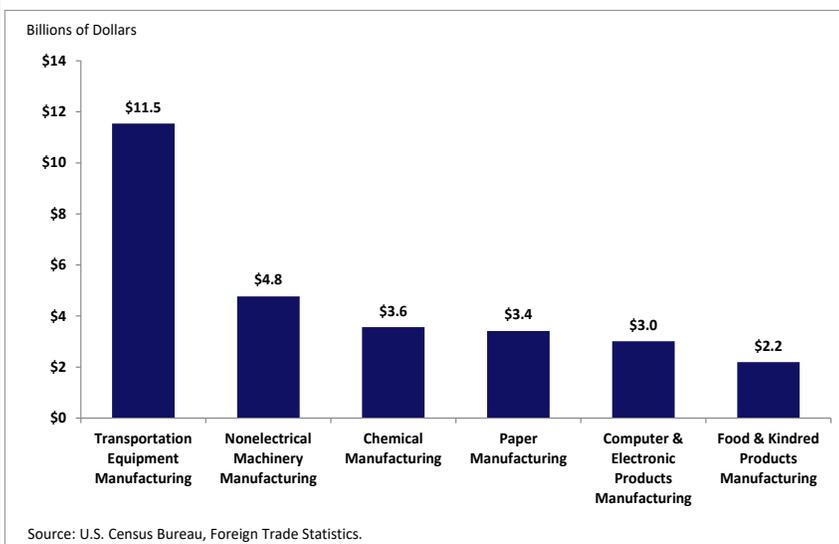

January 2021

www.bls.gov/mxp

Exports from Georgia totaled \$41.2 billion in 2019, up 1.5 percent from \$40.6 billion in 2018. Prices for the largest export industry in Georgia, transportation equipment manufacturing, increased over the fourth quarter of 2020. Export prices for chemical manufacturing and paper manufacturing also advanced over the same period, while machinery manufacturing export prices declined.

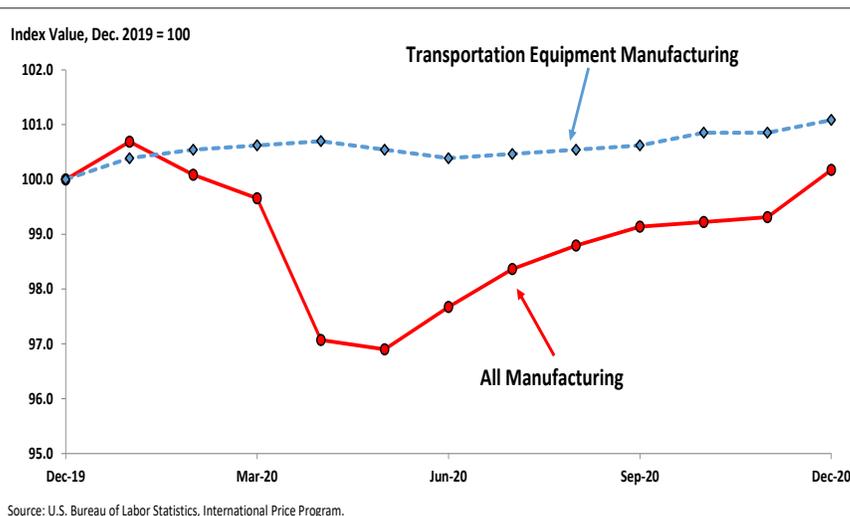

Top Six Georgia Exports by Trade Dollar Value, 2019

- In 2019, Georgia ranked ninth among U.S. states in the trade dollar value of its top export industry, transportation equipment manufacturing, accounting for 3.6 percent of total U.S. exports.
- Transportation equipment manufacturing amounted to 28.0 percent of the total export trade dollar value from Georgia in 2019.
- In 2019, Georgia ranked first in the United States in paper manufacturing exports and accounted for 14.4 percent of the U.S. total by trade dollar value.

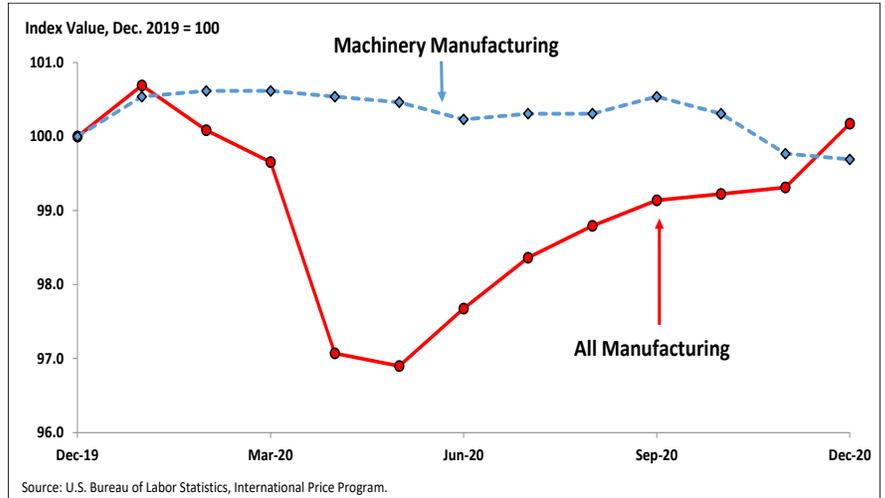

U.S. Export Price Indexes: Transportation Equipment Manufacturing

- Export prices for transportation equipment manufacturing advanced 0.5 percent from September to December.
- Over the 12-month period ended in December, export transportation equipment manufacturing prices rose 1.1 percent.
- The 1.1-percent advance in transportation equipment manufacturing prices from December 2019 to December 2020 was led by a 1.7-percent advance in motor vehicle parts manufacturing.

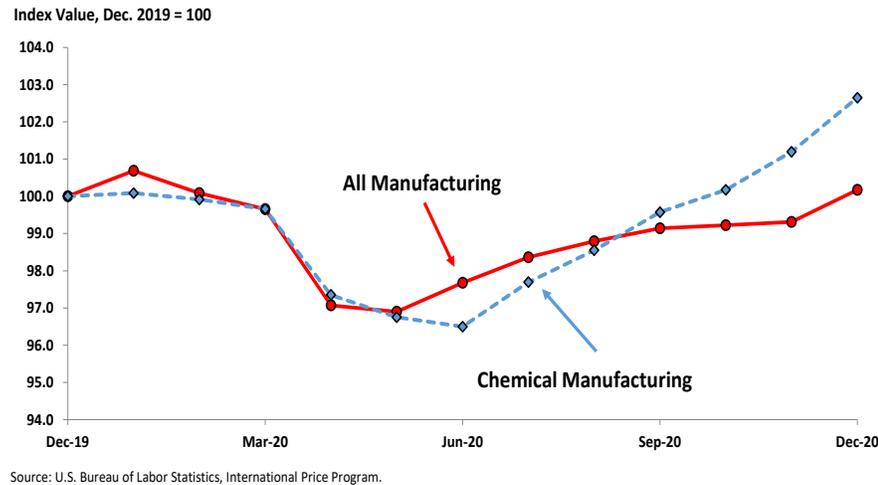

U.S. Export Price Indexes: Machinery Manufacturing

- Machinery manufacturing export prices fell 0.8 percent for the 3-month period ended December 2020.
- The decline in export machinery manufacturing prices from September to December was the largest 3-month decrease since the index was first published in December 2005.
- In 2020, prices for export machinery manufacturing fell 0.3 percent.

U.S. Export Price Indexes: Chemical Manufacturing

- The price index for chemical manufacturing rose 3.1 percent in the fourth quarter of 2020.
- Chemical manufacturing prices advanced 2.6 percent over the past 12 months.
- The 2020 increase in prices for chemical manufacturing was the largest 12-month rise since a 3.6-percent advance over the year ended November 2018.

U.S. Export Price Indexes: Paper Manufacturing

- Prices for export paper manufacturing advanced 0.3 percent from September to December.
- A 0.5-percent increase in prices for pulp, paper, and paperboard mills manufacturing drove the 3-month rise in overall paper manufacturing prices.
- Despite the 3-month advance, the export price index for paper manufacturing declined 0.9 percent over the past year.
