¹ Includes workers in private industry and state and local government. See Technical Note for further explanation.

² Based on worker attributes. For example, employee contributions may vary based on earnings, length of service, or age.

³ Includes contribution types not separately published such as composite rates, flexible benefits, and percent of earnings.

⁴ Surveyed occupations are classified into wage categories based on the average wage for the occupation, which may include workers with earnings both above and below the threshold. The categories were formed using percentile estimates generated using wage data for March 2018.

⁵ Less than 0.5.

Note: Because of rounding, sums of individual items may not equal totals. Dash indicates no workers in this category or data did not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/national-compensation-survey-glossary-of-employee-benefit-terms.htm.
