OCCUPATIONAL EMPLOYMENT AND WAGES — MAY 2015

Healthcare occupations had employment of 12 million in May 2015, representing nearly 9 percent of total national employment, the U.S. Bureau of Labor Statistics reported today. Registered nurses, with more than 2.7 million jobs, was the largest healthcare occupation. The largest healthcare occupations also included nursing assistants (1.4 million), home health aides (820,630), and licensed practical and licensed vocational nurses (697,250). (See chart 1.)

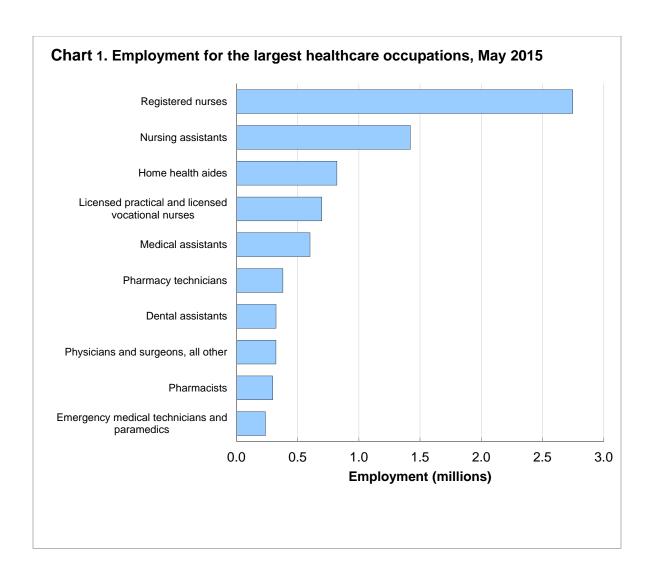

The data in this news release are the May 2015 employment and wage estimates from the Bureau of Labor Statistics' Occupational Employment Statistics (OES) program. These estimates cover over 800 occupations for the nation, states, and nearly 600 metropolitan and nonmetropolitan areas; and for more than 460 industry classifications at the national level.

Some healthcare occupations were among the highest paying occupations overall, including several physician and dentist occupations. Nurse anesthetists, with an annual mean wage of \$160,250; podiatrists (\$136,180); and pharmacists (\$119,270) also were among the highest paying healthcare occupations. The lowest paying healthcare occupations included home health aides (\$22,870) and veterinary assistants and laboratory animal caretakers (\$25,940). National employment and wage information for all occupations is shown in table 1.

Highlights from the May 2015 OES data:

Production occupations

- **Production occupations** had total employment of nearly 9.1 million and an annual mean wage of \$36,220 across all industries. (See table 1.) Among manufacturing industries, the pay for these occupations varied widely.
- Manufacturing industries with the highest wages for production occupations included petroleum and coal products manufacturing (\$62,140) and basic chemical manufacturing (\$55,230).
- Manufacturing industries with the lowest wages for production occupations included seafood product preparation and packaging (\$25,860), animal slaughtering and processing (\$27,460), and several apparel, textile, and leather products industries.

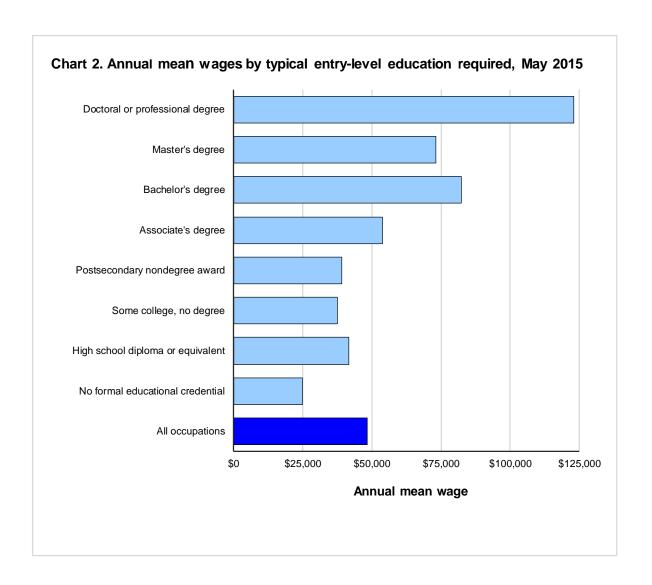

- Production occupations made up 6.6 percent of national employment, but over 11 percent of employment in Wisconsin and nearly 13 percent of employment in Indiana.
- Production occupations made up 35 percent of employment in Elkhart-Goshen, Ind., the highest employment share of any metropolitan area. Dalton, Ga.; Columbus, Ind.; and Hickory-Lenoir-Morganton, N.C., also were among the metropolitan areas with the highest shares of production occupations.

OES national industry-specific data are available from www.bls.gov/oes/current/oessrci.htm.

OES data by state and metropolitan/nonmetropolitan area are available from www.bls.gov/oes/current/oessrcst.htm and www.bls.gov/oes/current/oessrcma.htm, respectively.

Construction and extraction occupations

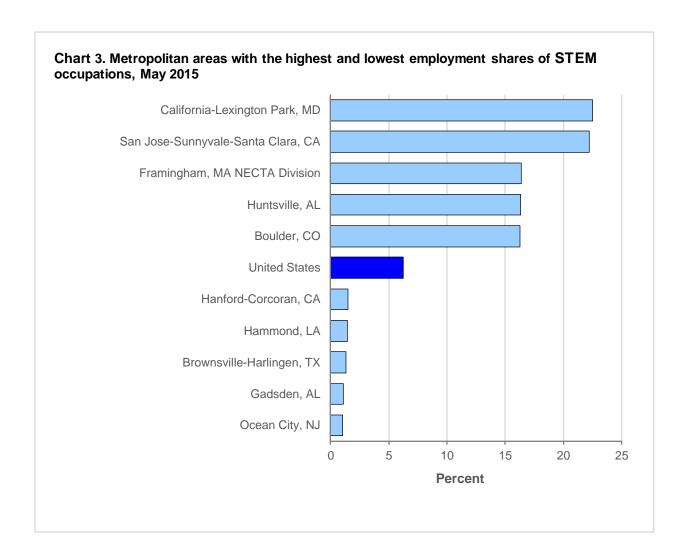

• **Construction and extraction occupations** had employment of 5.5 million, representing nearly 4 percent of national employment. (See table 1.)

- Construction laborers (887,580), carpenters (639,190), and electricians (592,230) were the largest construction occupations. (See table 1.)
- States with the highest concentrations of construction and extraction occupations included Wyoming and North Dakota, which each had nearly three times as many construction and extraction jobs as a share of total employment than the United States as a whole.
- Metropolitan areas with the highest concentrations of construction and extraction occupations included several areas in Texas; Farmington, N.M.; and Greeley, Colo.

Typical entry-level education

• Sixty-four percent of employment was in occupations that typically require either a high school diploma or equivalent or no formal educational credential for entry, such as retail sales occupations, general office clerks, and customer service representatives.

- Occupations typically requiring a bachelor's degree for entry made up 21 percent of national employment, but nearly 42 percent of employment in the District of Columbia and over 26 percent of employment in Massachusetts.
- States with the lowest shares of occupations typically requiring a bachelor's degree for entry included Nevada (15 percent) and North Dakota (16 percent).
- Average wages were generally higher for occupations that require more education. Annual mean wages were \$25,000 for occupations that typically require no formal educational credential for entry, \$41,730 for occupations typically requiring high school or the equivalent, and \$53,730 for occupations typically requiring an associate's degree. (See chart 2.)
- The annual mean wage for occupations that typically require a bachelor's degree for entry was \$82,260 nationally, but varied from \$60,240 in Montana to \$104,840 in the District of Columbia.

Additional charts of employment and wages by typical entry-level educational requirement are available at www.bls.gov/oes/current/overview_2015.htm.

STEM occupations

- There were nearly 8.6 million science, technology, engineering, and mathematics (STEM) jobs representing 6.2 percent of total U.S. employment.
- Seven of the 10 **largest STEM occupations** were related to computers, and included applications software developers (747,730) and computer user support specialists (585,060). (See table 1.)
- Areas with the highest employment shares of STEM occupations included California-Lexington Park, Md. (nearly 23 percent of employment), and San Jose-Sunnyvale-Santa Clara, Calif. (22 percent). (See chart 3.)
- STEM occupations were less prevalent (approximately 1 percent of employment) in Brownsville-Harlingen, Texas; Gadsden, Ala.; and Ocean City, N.J. (See chart 3.)
- STEM occupations had an annual mean wage of \$87,570, compared with \$45,700 for non-STEM occupations. Ninety-three of the 100 STEM occupations had mean wages significantly above the all-occupations average of \$48,320. (See table 1.)
- The **highest paying STEM occupations** included petroleum engineers (\$149,590), physicists (\$118,500), and the three STEM-related management occupations. (See table 1.)
- The **lowest paying STEM occupations** included forest and conservation technicians (\$38,260) and agricultural and food science technicians (\$39,000). (See table 1.)

Additional STEM charts are available at www.bls.gov/oes/current/overview 2015.htm.

Largest occupations

- The **largest occupations** overall were retail salespersons (4.6 million) and cashiers (3.5 million). Retail salespersons also was the largest occupation in 36 of the 50 states. (See table 1.)
- The largest occupations nationally also included combined food preparation and serving workers (3.2 million), general office clerks (2.9 million), registered nurses (2.7 million), and customer service representatives (2.6 million). (See table 1.)
- Most of the largest occupations were relatively low paying. For example, retail salespersons (\$26,340), cashiers (\$20,990), and combined food preparation and serving workers (\$19,710) all had annual mean wages significantly below the all-occupations average. (See table 1.)
- Registered nurses was the largest occupation with an above-average wage (\$71,000). (See table 1.)

Public sector occupations

- The public sector made up nearly 16 percent of employment and had a different occupational mix from the private sector.
- Many of the **largest public sector occupations** were related to education, including elementary school teachers, except special education (public sector employment of 1.2 million); teacher assistants (956,850); and secondary school teachers, except special and career/technical education (847,520).
- Police and sheriff's patrol officers (647,880), general office clerks (521,180), and correctional officers and jailers (407,050) also were among the occupations with the highest public sector employment.

OES data by ownership are available from www.bls.gov/oes/current/oessrci.htm.

More information

The Occupational Employment Statistics program produces employment and wage estimates for over 800 occupations for all industries combined in the nation; the 50 states and the District of Columbia; 432 metropolitan areas and divisions; 167 nonmetropolitan areas; and Guam, Puerto Rico, and the U.S. Virgin Islands. National estimates are also available by industry for NAICS sectors, 3-, 4-, and selected 5- and 6-digit industries, and by ownership across all industries and for schools and hospitals. Additional OES data are available at www.bls.gov/oes/tables.htm.

This release contains data on STEM occupations. A list of occupations included in the STEM definition used for this release is available at www.bls.gov/oes/stem_list.xlsx. Data on employment by the typical education level required to enter an occupation are based on education and training categories from the BLS Employment Projections program. Education and training levels assigned to each occupation are available at www.bls.gov/emp/ep_table_112.htm.

Introduction of New Metropolitan Area Definitions

With the issuance of data for May 2015, the OES program has incorporated redefined metropolitan area definitions as designated by the Office of Management and Budget. OES data are available for 394 metropolitan areas, 38 metropolitan divisions, and 167 OES-defined nonmetropolitan areas. A listing of the areas and their definitions can be found at www.bls.gov/oes/current/msa_def.htm.

Technical Note

Scope of the survey

The Occupational Employment Statistics (OES) survey is a semiannual mail survey measuring occupational employment and wage rates for wage and salary workers in nonfarm establishments in the United States. The OES data available from BLS include cross-industry occupational employment and wage estimates for the nation; over 650 areas, including states and the District of Columbia, metropolitan statistical areas (MSAs), metropolitan divisions, nonmetropolitan areas, and territories; national industry-specific estimates at the NAICS sector, 3-, 4-, and selected 5- and 6-digit industry levels; and national estimates by ownership across all industries and for schools and hospitals.

The OES survey is a cooperative effort between BLS and the State Workforce Agencies (SWAs). BLS funds the survey and provides the procedures and technical support, while the State Workforce Agencies collect most of the data. OES estimates are constructed from a sample of about 1.2 million establishments. Each year, forms are mailed to two semiannual panels of approximately 200,000 sampled establishments, one panel in May and the other in November. The May 2015 estimates are based on responses from six semiannual panels collected over a 3-year period: May 2015, November 2014, May 2014, November 2013, May 2013, and November 2012. The overall national response rate for the six panels, based on the 50 states and the District of Columbia, is 73.5 percent based on establishments and 69.6 percent based on weighted sampled employment. The employment of sampled establishments across all six semiannual panels represents approximately 57.9 percent of total national employment. (Response rates are slightly lower for these estimates due to the federal shutdown in October 2013.)

The occupational coding system

The OES survey categorizes workers into 821 detailed occupations based on the Office of Management and Budget's 2010 Standard Occupational Classification (SOC) system. Together, these detailed occupations make up 22 of the 23 SOC major occupational groups. Major group 55, Military Specific Occupations, is not included.

For more information about the SOC system, please see the BLS website at www.bls.gov/soc/.

The industry coding system

The May 2015 OES estimates use the 2012 North American Industry Classification System (NAICS). For more information about NAICS, see the BLS website at www.bls.gov/bls/naics.htm.

The OES survey excludes the majority of the agricultural sector, with the exception of logging (NAICS 113310), support activities for crop production (NAICS 1151), and support activities for animal production (NAICS 1152). Private households (NAICS 814) also are excluded. OES federal government data include the U.S. Postal Service and the federal executive branch only. All other industries, including state and local government, are covered by the survey.

Survey sample

The OES survey draws its sample from state unemployment insurance (UI) files. Supplemental sources are used for rail transportation (NAICS 4821) and Guam because they do not report to the UI program. The OES survey sample is stratified by metropolitan and nonmetropolitan area, industry, and size.

To provide the most occupational coverage, larger employers are more likely to be selected than smaller employers. A census is taken of the executive branch of the federal government, the U.S. Postal Service, and state government.

Concepts

Occupational employment is the estimate of total wage and salary employment in an occupation. The OES survey defines employment as the number of workers who can be classified as full- or part-time employees, including workers on paid vacations or other types of paid leave; workers on unpaid short-term absences; salaried officers, executives, and staff members of incorporated firms; employees temporarily assigned to other units; and employees for whom the reporting unit is their permanent duty station, regardless of whether that unit prepares their paycheck. The survey does not include the self-employed, owners and partners in unincorporated firms, household workers, or unpaid family workers.

Wages for the OES survey are straight-time, gross pay, exclusive of premium pay. Base rate; cost-of-living allowances; guaranteed pay; hazardous-duty pay; incentive pay, including commissions and production bonuses; and tips are included. Excluded are overtime pay, severance pay, shift differentials, nonproduction bonuses, employer cost for supplementary benefits, and tuition reimbursements.

OES receives wage rate data for the federal government, the U.S. Postal Service, and most state governments. For the remaining establishments, the OES survey collects wage data in 12 intervals. For each occupation, respondents are asked to report the number of employees paid within specific wage intervals. The intervals are defined both as hourly rates and the corresponding annual rates, where the annual rate for an occupation is calculated by multiplying the hourly wage rate by a typical work year of 2,080 hours. The responding establishments are instructed to report the hourly rate for parttime workers, and to report annual rates for occupations that are typically paid at an annual rate but do not work 2,080 hours per year, such as teachers, pilots, and flight attendants. Other workers, such as some entertainment workers, are paid hourly rates, but generally do not work 40 hours per week, year round. For these workers, only an hourly wage is reported.

Estimation methodology

The OES survey is designed to produce estimates by combining six panels of data collected over a 3-year period. Each OES panel includes approximately 200,000 establishments. The full six-panel sample of nearly 1.2 million establishments allows the production of estimates at detailed levels of geography, industry, and occupation.

Wage updating. Significant reductions in sampling errors are obtained by combining six panels of data, particularly for small geographic areas and occupations. Wages for the current panel need no adjustment. However, wages in the five previous panels need to be updated to the current panel's reference period.

The OES program uses the BLS Employment Cost Index (ECI) to adjust survey data from prior panels before combining them with the current panel's data. The wage updating procedure adjusts each detailed occupation's wage rate, as measured in the earlier panel, according to the average movement of its broader occupational division.

Imputation. About 25 percent of establishments do not respond for a given panel. For most employers, a "nearest neighbor" hot deck imputation procedure is used to impute missing occupational employment totals. A variant of mean imputation is used to impute missing wage distributions. In some cases, data for current panel nonrespondents are available from earlier panels. In those cases, the older data may be used and aged to represent the current reference period.

Weighting and benchmarking. The sampled establishments are weighted to represent all establishments for the reference period. Weights are further adjusted by the ratio of employment totals (the average of November 2014 and May 2015 employment) from the BLS Quarterly Census of Employment and Wages to employment totals from the OES survey.

Changes and special procedures for the May 2015 estimates

With the issuance of data for May 2015, the OES program has incorporated redefined metropolitan area definitions as designated by the Office of Management and Budget. OES data are available for 394 metropolitan areas, 38 metropolitan divisions, and 167 OES-defined nonmetropolitan areas. A listing of the areas and their definitions can be found at www.bls.gov/oes/current/msa def.htm.

The Quarterly Census of Employment and Wages program, from which the OES sample is drawn, has recently begun coding some establishments that were historically found in NAICS 814110 Private Households to NAICS 624120 Services for the Elderly and Persons with Disabilities. Private households are out of scope for OES, so this shift caused a scope increase for OES in NAICS 624120. Because this scope increase affected only the three most recent of the six survey panels used to produce the May 2015 OES estimates, the units that shifted industries were removed from the survey data and not used in estimation.

For more information

Answers to frequently asked questions about the OES data are available at www.bls.gov/oes/oes_ques.htm. Detailed technical information about the OES survey is available in the Survey Methods and Reliability Statement on the BLS website at www.bls.gov/oes/current/methods statement.pdf.

Table 1. National employment and wage data from the Occupational Employment Statistics survey by occupation, May 2015

		Mean w	ages	Median

Occupation	Employment	Hourly	Annual ¹	hourly wages
ce and administrative support occupations (Continued)				
Postal service workers	504,540	\$24.38	\$50,700	\$27.
Postal service clerks		23.60	49,090	27.
Postal service mail carriers		24.58	51,130	28.
Postal service mail sorters, processors, and processing machine operators	109,930	24.35	50,650	27.
Production, planning, and expediting clerks	309,110	23.18	48,210	22.
Shipping, receiving, and traffic clerks		15.55	32,350	14.
Stock clerks and order fillers	1,934,060	12.47	25,940	11.
Weighers, measurers, checkers, and samplers, recordkeeping	69,360	14.89	30,980	13.
Secretaries and administrative assistants		18.93	39,360	17.
Secretaries and administrative assistants	3,680,630	18.93	39,360	17.
Executive secretaries and executive administrative assistants	666,490	26.66	55,460	25.
Legal secretaries	202,660	22.34	46,470	20.
Medical secretaries	530,360	16.50	34,330	15.
Secretaries and administrative assistants, except legal, medical, and executive	2,281,120	16.92	35,200	16.
Other office and administrative support workers		15.77	32,800	14.
Computer operators	51,510	20.26	42,140	19.
Data entry and information processing workers	· · · · · · · · · · · · · · · · · · ·	15.79	32,840	14.
Data entry keyers	· · · · · · · · · · · · · · · · · · ·	14.81	30,810	14.
Word processors and typists		18.61	38,710	18.
Desktop publishers		21.10	43,900	19.
Insurance claims and policy processing clerks	-, -	19.02	39,560	18.
Mail clerks and mail machine operators, except postal service		14.39	29,930	13.
Office clerks, general	· · · · · · · · · · · · · · · · · · ·	15.33	31,890	14.
Office machine operators, except computer	, ,	14.90	30,980	13.
Proofreaders and copy markers		18.12	37,690	17.
Statistical assistants.		21.26	44,220	20.
Office and administrative support workers, all other	,	16.70	34,730	15.
Onice and administrative support workers, an other	239,030	10.70	34,730	13.
ming, fishing, and forestry occupations	454,230	12.67	26.360	10.
		23.22	48,290	21.
Supervisors of farming, fishing, and forestry workers		23.22	48,290	21.
1 0, 0,	· · · · · · · · · · · · · · · · · · ·		,	
Agricultural workers		11.58	24,090	9.
Agricultural inspectors		21.06	43,810	20
Animal breeders		21.47	44,650	18.
Graders and sorters, agricultural products		11.18	23,260	10.
Miscellaneous agricultural workers		11.18	23,260	9.
Agricultural equipment operators		14.13	29,380	13.
Farmworkers and laborers, crop, nursery, and greenhouse		10.64	22,130	9.
Farmworkers, farm, ranch, and aquacultural animals		12.58	26,160	11.
Agricultural workers, all other		15.31	31,850	14.
Fishing and hunting workers		14.60	30,370	13.
Fishers and related fishing workers		14.41	29,970	13.
Forest, conservation, and logging workers		17.53	36,470	16
Forest and conservation workers		14.36	29,860	12
Logging workers		18.10	37,640	17
Fallers		20.07	41,750	17
Logging equipment operators		17.76	36,930	17.
Log graders and scalers		17.99	37,420	17

Tank car, truck, and ship loaders	11,960	19.72	41,010	17.63
Material moving workers, all other	21,740	17.82	37,060	14.60

¹ Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours figure of 2,080 hours; for those occupations where there is not an hourly mean wage published, the annual wage has been directly calculated from the reported survey data.

² Wages for some occupations that do not generally work year-round, full time, are reported either as hourly wages or annual salaries depending on how they are typically paid.

³ Represents a wage equal to or greater than \$90.00 per hour.
