

Women in the labor force: a databook

December 2019 | Report 1084

In 2018, 57.1 percent of all women participated in the labor force. This was about the same as the 57.0 percent who participated in 2017, and still about 3 percentage points below the peak of 60.0 percent in 1999. By comparison, the labor force participation rate for men was 69.1 percent in 2018, unchanged from the previous year and 17.5 percentage points below its peak of 86.6 percent in 1948.

The rapid rise in women’s labor force participation was a major development in the labor market during the second half of the 20th century. Overall, women’s labor force participation increased dramatically from the 1960s through the 1980s, before slowing in the 1990s. With the dawn of the 21st century, labor force participation among women began a gradual decline, until the participation rate hit a recent low in 2015 at 56.7 percent.

Women’s involvement in the labor market has changed in several notable ways over the past several decades. For example, women became much more likely to pursue higher levels of education: from 1970 to 2018, the proportion of women ages 25 to 64 in the labor force who held a college degree quadrupled, whereas the proportion of men with a college degree about doubled over that time. Women also have become more likely to work full time and year round. In addition, women’s earnings as a proportion of men’s earnings have grown over time: women working full time earned 62 percent of what men earned in 1979 and 81 percent in 2018. More recently, women in the baby-boom generation (defined as people born between 1946 and 1964) have begun to retire in large numbers, which has put downward pressure on their labor force participation rate over the past decade or so.

This report presents historical and recent labor force and earnings data for women and men from the Current Population Survey (CPS), a national monthly survey of approximately 60,000 households conducted by the U.S. Census Bureau for the U.S. Bureau of Labor Statistics. Unless otherwise noted, data are annual averages from the CPS. (For a detailed description of the source of the data and an explanation of concepts and definitions used, see the technical notes at the end of this report.)

Selected demographic characteristics

Women’s labor force participation was 57.1 percent in 2018, little changed from 57.0 percent in 2017. Men’s labor force participation, which always has been much higher than that for women, was 69.1 percent in 2018, unchanged from the previous year. (See table 2.)

In 2018, the unemployment rate for women was 3.8 percent, down 0.5 percentage point from a year earlier. The rate for men was 3.9 percent in 2018, also down 0.5 percentage point from a year earlier. Women’s unemployment rates varied considerably by race and ethnicity. In 2018, Asian women had the lowest rate (3.0 percent), followed by White women (3.4 percent). Unemployment rates for Hispanic or Latino women and Black or African American women were much higher, at 5.1 percent and 6.0 percent, respectively. Men’s unemployment rates exhibit a similar pattern. The rates for

Asian men (3.0 percent) and White men (3.5 percent) were well below the figures for Hispanic or Latino men (4.3 percent) and Black or African American men (7.0 percent). (See tables 2 and 3.)

Labor force participation varies by marital status and differs between women and men. Never-married women had the highest participation rate of all women at 64.5 percent in 2018. Separated and divorced women were more likely to participate in the labor force (62.7 percent and 61.2 percent, respectively) than married women (58.2 percent). By contrast, married men were more likely to participate in the labor force (73.1 percent) than separated men (70.2 percent), never-married men (67.7 percent), and divorced men (64.4 percent). Among women and men who were widowed, the labor participation rates were 19.5 percent and 24.0 percent, respectively. (See table 4.)

The labor force participation rate of all women with children under 18 years of age was 71.4 percent in March 2018, about unchanged (71.3 percent) from 2017. Among mothers, the labor force participation rate for those with children 6 to 17 years old, at 76.5 percent in March 2018, was higher than for those with younger children. The rate for those with children under 6 years old was 64.7 percent, and the rate for women with children under 3 years old was 62.0 percent. (See tables 5 and 7; data were collected in the 2018 Annual Social and Economic Supplement to the CPS.)

Unmarried mothers are more likely to participate in the labor force than married mothers. In March 2018, 77.3 percent of unmarried mothers were in the labor force, compared with 69.0 percent of married mothers. (See table 6; data were collected in the 2018 Annual Social and Economic Supplement to the CPS.)

Educational attainment

The educational attainment of women ages 25 to 64 in the labor force has risen substantially over the past half century. In 2018, 44 percent of women ages 25 to 64 held a bachelor's degree and higher, compared with 11 percent in 1970. In 2018, 6 percent of women in the labor force had less than a high school diploma—that is, did not graduate from high school or earn a GED—down from 34 percent in 1970. (See tables 9A and 9B.)

Occupation and industry

Women accounted for 52 percent of all workers employed in management, professional, and related occupations in 2018, somewhat more than their share of total employment (47 percent). The share of women in specific occupations within this large category varied. For example, 19 percent of software developers, 27 percent of chief executives, and 37 percent of lawyers were women, whereas 89 percent of registered nurses, 80 percent of elementary and middle school teachers, and 61 percent of accountants and auditors were women. (See table 11.)

In 2018, Asian and White women were more likely to work in higher paying management, professional, and related occupations (53 percent and 45 percent, respectively) than were Black (36 percent) and Hispanic women (27 percent). Meanwhile, Hispanic (31 percent) and Black women (28 percent) were more likely than Asian and White women (21 percent and 20 percent, respectively) to work in lower paying service occupations. (See table 12.)

Women accounted for more than half of all workers within several industry sectors in 2018: financial activities (53 percent), education and health services (74 percent), leisure and hospitality (52 percent), and other services (54 percent). (Other services includes repair and maintenance industries; personal and laundry services; membership associations and organizations; and private households.) However, women were substantially underrepresented

(relative to their share of total employment) in agriculture (26 percent), mining (14 percent), construction (10 percent), manufacturing (29 percent), and transportation and utilities (24 percent). (See table 14.)

Earnings

In 2018, women who worked full time in wage and salary jobs had median usual weekly earnings of \$789, which represented 81.1 percent of men's median weekly earnings (\$973). Among women, earnings were higher for Asians (\$937) and Whites (\$817) than for Blacks (\$654) and Hispanics (\$617). Women's-to-men's earnings ratios were higher for Blacks (89.0 percent) and Hispanics (85.7 percent) than for Whites (81.5 percent) and Asians (75.5 percent). (See table 16; note that the comparisons of earnings in this report are on a broad level and do not control for many factors that may be important in explaining earnings differences.)

Women's median usual weekly earnings vary by educational attainment. In 2018, female full-time wage and salary workers age 25 and older with less than a high school diploma had earnings of \$469. Women who had only a high school diploma had earnings of \$616, those with an associate's degree had earnings of \$746, and those with a bachelor's degree and higher had earnings of \$1,145. (See table 17.)

Median usual weekly earnings of full-time wage and salary workers were the highest in 2018 for female nurse practitioners and pharmacists (\$1,891 and \$1,890, respectively), lawyers (\$1,762), and chief executives (\$1,736). Earnings for men were highest for physicians and surgeons (\$2,513), chief executives (\$2,488), architectural and engineering managers (\$2,285), and pharmacists (\$2,271). (See table 18.)

In 2018, 2.6 percent of women paid at an hourly rate had earnings at or below the prevailing Federal minimum wage (\$7.25 per hour). Among women 25 years and older who were paid at an hourly rate, 1.7 percent had earnings at or below the minimum wage, compared with 6.3 percent of women ages 16 to 24. (See table 20.)

Hours of work

In 2018, 24 percent of employed women usually worked part time—that is, less than 35 hours per week. The percentage of employed women working part time has not changed much over the past five decades. In comparison, 12 percent of employed men usually worked part time in 2018. This rate for men had trended up during the Great Recession before beginning a gradual decline in 2012. (See table 21.)

Of all women who worked at some point during calendar year 2017, 63 percent worked full time and year round, compared with 41 percent in 1970. The proportion of men who worked full time and year round also rose over the period, from 66 percent in 1970 to 75 percent in 2017. (See table 23; data were collected in the 1971 and 2018 Annual Social and Economic Supplements to the CPS and reflect earnings and work experience in the previous calendar year.)

Married-couple families

Among married-couple families, 53 percent had earnings from both the wife and the husband in 2017, compared with 44 percent in 1967. These rates are below the peak of 60 percent in 1996. Couples in which only the husband worked represented 19 percent of married-couple families in 2017, versus 36 percent in 1967. (See table 24B; data were collected in the 1968 and 2018 Annual Social and Economic Supplements to the CPS and reflect earnings and work experience in the previous calendar year.)

The working poor

Among people who were in the labor force for at least 27 weeks in 2017, more women (3.8 million) than men (3.1 million) lived below the official poverty level. The working-poor rate (the ratio of the working poor to all individuals who were in the labor force for at least 27 weeks) was 5.3 percent for women and 3.8 percent for men. Black and Hispanic women were much more likely to be among the working poor than White or Asian women. The working-poor rates for Black and Hispanic women were 10.0 percent and 9.1 percent, respectively, compared with 4.5 percent for White women and 2.5 percent for Asian women. (See table 26; data are from the 2018 Annual Social and Economic Supplement to the CPS and reflect earnings and work experience in the previous calendar year.)

Worker displacement

From January 2015 through December 2017, 3.0 million workers age 20 and older were displaced from jobs they had held for at least 3 years; women accounted for 44 percent of those displaced. Labor market outcomes were similar for displaced women and men. Displaced women were about as likely as men to have found a new job in January 2018: the reemployment rate was 65 percent for women and 67 percent for men. Displaced women and men were about equally likely to be unemployed in January 2018, at 14 percent and 15 percent, respectively. Displaced women were slightly more likely to have left the labor force in January 2018 than displaced men (21 percent and 18 percent, respectively). (See table 27; data are from the January 2018 Displaced Worker, Employee Tenure, and Occupational Mobility Supplement to the CPS.)

Employee tenure

In January 2018, the median number of years that employed women had been with their employers was 4.0 years, unchanged from January 2016. Median employee tenure (the point at which half of all workers had more tenure and half had less tenure) for men held at 4.3 years. (See table 28; data are from the January 2018 Displaced Worker, Employee Tenure, and Occupational Mobility Supplement to the CPS.)

School enrollment

Of the 3.2 million young people ages 16 to 24 who graduated from high school between January and October 2018, 69.1 percent (2.2 million) were enrolled in college in October of that year. For the 2018 high school graduates, the college enrollment rate was 71.4 percent for young women and 66.9 percent for young men. (See table 29; data are from the October 2018 School Enrollment Supplement to the CPS.)

Among high school students, young women were more likely to be in the labor force (24.6 percent) in October 2018 than were young men (20.9 percent). Labor force participation rates followed the same pattern among college students: college women had a labor force participation rate of 49.7 percent, and college men had a participation rate of 44.9 percent. (See table 30; data are from the October 2018 School Enrollment Supplement to the CPS.)

Among young people ages 16 to 24 who were not enrolled in school in October 2018, the unemployment rate for those without a high school diploma was 12.3 percent for young women and 15.7 percent for young men. In contrast, the unemployment rates for young women and men with at least a bachelor's degree were 6.6 percent each. (See table 30; data are from the October 2018 School Enrollment Supplement to the CPS.)

Multiple jobholders and the self-employed

In 2018, 7.8 million workers had more than one job. About half (3.9 million) of these workers were women. The multiple jobholding rate for women, at 5.4 percent, was higher than that for men, at 4.6 percent. (See table 31.)

In 2018, 4.9 percent of working women in nonagricultural industries were self-employed, compared with 6.7 percent of men. Among the self-employed, 39.3 percent were women in 2018, compared with 26.8 percent in 1976. (See table 32.)

Foreign-born

Foreign-born women were less likely than native-born women to be in the labor force in 2018 (54.3 percent, compared with 57.6 percent). By contrast, foreign-born men were more likely to be in the labor force (77.9 percent) than were native-born men (67.3 percent). Among women, the unemployment rate for foreign-born women, at 4.1 percent, was higher than that for native-born women, at 3.8 percent. At 3.0 percent, the unemployment rate for foreign-born men was lower than that of native-born men (4.2 percent). (See table 33.)

Union membership

In 2018, 9.9 percent of female wage and salary workers were members of unions, compared with 11.1 percent of their male counterparts. For both men and women, the union membership rate in 2018 was lower than in 1983 (the first year that union membership data were regularly collected in the CPS), but the rate for men fell by much more than did the rate for women. In 1983, union membership rates were 24.7 percent for men and 14.6 percent for women. (See table 34.)

Veterans

There were 1.1 million female veterans of the U.S. Armed Forces in the labor force in 2018. Women accounted for 12.0 percent of the 9.5 million veterans in the labor force. The unemployment rate for female veterans, at 3.0 percent in 2018, was similar to that of male veterans, at 3.5 percent. (See table 35.)

People with disabilities

Of the 16.1 million women with disabilities in 2018, 2.9 million, or 17.8 percent, participated in the labor force. A little over half of women with disabilities (52 percent) were age 65 and older; labor force participation among this age group was 5.5 percent, compared with 30.9 percent for those ages 16 to 64. Among the 14.0 million men with disabilities, 24.2 percent participated in the labor force in 2018. About 46 percent of all men with disabilities were age 65 and older. Among men in this age group, 10.7 percent were labor force participants, compared with 35.8 percent of men ages 16 to 64 with disabilities.

Among people with a disability, the unemployment rate for women was 8.1 percent and that for men was 7.9 percent, more than twice the rates of women and men without a disability (3.7 percent and 3.8 percent, respectively). (See table 36.)

Statistical Tables

Table 1. Employment status of the civilian noninstitutional population, by age and gender, 2018 annual averages (Numbers in thousands)

Age	Civilian noninstitutional population	Civilian labor force						Not in labor force

Note: Revisions to population controls and other changes can affect the comparability of labor force levels over time. In recent years, for example, updated population controls have been introduced annually with the release of January data. Information about historical comparability is available online at www.bls.gov/cps/documentation.htm#comp.

See footnotes at end of table.

[1] Refers to women in opposite-sex married couples only.

[2] Includes women who are never married; widowed; divorced; separated; and married, spouse absent; as well as women in same-sex marriages.

Note: Children are "own" children and include sons, daughters, stepchildren, or adopted children. Not included are nieces, nephews, grandchildren, and other related and unrelated children. Estimates for the race groups shown (White, Black or African American, and Asian) do not sum to totals because data are not presented for all races. People whose ethnicity is identified as Hispanic or Latino may be of any race. Dash indicates no data or data that do not meet publication criteria.

Judicial law clerks	13	-
Judges, magistrates, and other judicial workers	80	32.3
Paralegals and legal assistants	444	86.4
Miscellaneous legal support workers	156	73.1
Education, training, and library occupations	9,313	73.2
Postsecondary teachers	1,417	49.0
Preschool and kindergarten teachers	716	97.6
Elementary and middle school teachers	3,421	79.8
Secondary school teachers	1,062	58.0
Special education teachers	369	87.5

See footnotes at end of table.

Table 11. Employed people, by detailed occupation and gender, 2018 annual averages (Numbers in thousands)

Occupation	Total employed	Percent women
Other teachers and instructors	905	61.9
Archivists, curators, and museum technicians	45	-
Librarians	178	78.5
Library technicians	33	-
Teacher assistants	994	88.9
Other education, training, and library workers	173	73.9
Arts, design, entertainment, sports, and media occupations	3,362	46.8
Artists and related workers	232	52.2
Designers	984	53.0
Actors	36	-
Producers and directors	201	29.2
Athletes, coaches, umpires, and related workers	359	34.9
Dancers and choreographers	24	-
Musicians, singers, and related workers	202	35.0
Entertainers and performers, sports and related workers, all other	68	51.0
Announcers	56	17.7
News analysts, reporters and correspondents	79	51.7
Public relations specialists	140	65.7
Editors	160	52.2
Technical writers	69	55.9
Writers and authors	227	59.6
Miscellaneous media and communication workers	111	70.8
Broadcast and sound engineering technicians and radio operators	120	12.4
Photographers	208	47.8
Television, video, and motion picture camera operators and editors	82	16.1
Media and communication equipment workers, all other	5	-
Healthcare practitioners and technical occupations	9,420	75.0
Chiropractors	63	21.1
Dentists	162	35.7
Dietitians and nutritionists	104	93.1
Optometrists	54	46.0
Pharmacists	348	63.4

See footnotes at end of table.

Table 11. Employed people, by detailed occupation and gender, 2018 annual averages (Numbers in thousands)

Occupation	Total employed	Percent women
Physicians and surgeons	1,094	40.3
Physician assistants	132	72.1
Podiatrists	11	-
Audiologists	10	-
Occupational therapists	116	86.8
Physical therapists	286	69.5
Radiation therapists	16	-
Recreational therapists	11	-
Respiratory therapists	108	63.8
Speech-language pathologists	152	96.0
Exercise physiologists	5	-
Therapists, all other	237	82.1
Veterinarians	102	71.2
Registered nurses	3,213	88.6
Nurse anesthetists	26	-
Nurse midwives	3	-
Nurse practitioners	212	87.2
Health diagnosing and treating practitioners, all other	40	-
Clinical laboratory technologists and technicians	318	75.2
Dental hygienists	178	97.1
Diagnostic related technologists and technicians	346	67.9
Emergency medical technicians and paramedics	214	33.9
Health practitioner support technologists and technicians	694	80.6
Licensed practical and licensed vocational nurses	658	87.8
Medical records and health information technicians	171	93.6
Opticians, dispensing	61	73.4
Miscellaneous health technologists and technicians	139	66.5
Other healthcare practitioners and technical occupations	137	52.1
Service occupations	26,854	57.5
Healthcare support occupations	3,629	87.1
Nursing, psychiatric, and home health aides	2,035	89.3
Occupational therapy assistants and aides	35	-

See footnotes at end of table.

Table 11. Employed people, by detailed occupation and gender, 2018 annual averages (Numbers in thousands)

Occupation	Total employed	Percent women
Physical therapist assistants and aides	88	67.4
Massage therapists	155	83.2
Dental assistants	293	96.0
Medical assistants	570	90.6
Medical transcriptionists	44	-
Pharmacy aides	34	-
Veterinary assistants and laboratory animal caretakers	56	86.3
Phlebotomists	115	75.0
Miscellaneous healthcare support occupations, including medical equipment preparers	204	64.0
Protective service occupations	3,203	22.5
First-line supervisors of correctional officers	45	-
First-line supervisors of police and detectives	88	17.0
First-line supervisors of fire fighting and prevention workers	49	-
First-line supervisors of protective service workers, all other	86	22.4
Firefighters	306	5.1
Fire inspectors	23	-
Bailliffs, correctional officers, and jailers	406	29.6
Detectives and criminal investigators	164	24.4
Fish and game wardens	7	-
Parking enforcement workers	4	-
Police and sheriff's patrol officers	728	15.4
Transit and railroad police	2	-
Animal control workers	19	-
Private detectives and investigators	96	49.5
Security guards and gaming surveillance officers	958	22.4
Crossing guards	66	53.2
Transportation security screeners	41	-
Lifeguards and other recreational, and all other protective service workers	117	46.3
Food preparation and serving related occupations	8,220	55.5
Chefs and head cooks	427	22.0
First-line supervisors of food preparation and serving workers	563	57.2
Cooks	2,067	41.8

See footnotes at end of table.

Table 11. Employed people, by detailed occupation and gender, 2018 annual averages (Numbers in thousands)

Occupation	Total employed	Percent women
Food preparation workers	988	61.0
Bartenders	474	57.2
Combined food preparation and serving workers, including fast food	322	63.0
Counter attendants, cafeteria, food concession, and coffee shop	202	68.8
Waiters and waitresses	2,020	69.9
Food servers, nonrestaurant	226	70.2
Dining room and cafeteria attendants and bartender helpers	309	45.7
Dishwashers	263	24.3
Hosts and hostesses, restaurant, lounge, and coffee shop	354	81.6
Food preparation and serving related workers, all other	5	-
Building and grounds cleaning and maintenance occupations	5,854	41.3
First-line supervisors of housekeeping and janitorial workers	339	42.4
First-line supervisors of landscaping, lawn service, and groundskeeping workers	254	8.0
Janitors and building cleaners	2,342	34.1
Maids and housekeeping cleaners	1,512	90.1
Pest control workers	79	8.4
Grounds maintenance workers	1,328	6.7
Personal care and service occupations	5,947	76.9
First-line supervisors of gaming workers	187	44.4
First-line supervisors of personal service workers	208	73.3
Animal trainers	55	72.6
Nonfarm animal caretakers	268	77.6
Gaming services workers	102	47.8
Motion picture projectionists	1	-
Ushers, lobby attendants, and ticket takers	35	-
Miscellaneous entertainment attendants and related workers	210	38.3
Embalmers and funeral attendants	17	-
Morticians, undertakers, and funeral directors	34	-
Barbers	132	21.0
Hairdressers, hairstylists, and cosmetologists	834	92.1
Miscellaneous personal appearance workers	449	83.6
Baggage porters, bellhops, and concierges	92	22.6

See footnotes at end of table.

Table 11. Employed people, by detailed occupation and gender, 2018 annual averages (Numbers in thousands)

Occupation	Total employed	Percent women
Tour and travel guides	65	43.6
Childcare workers	1,193	94.0
Personal care aides	1,354	84.4
Recreation and fitness workers	497	60.5
Residential advisors	41	-
Personal care and service workers, all other	171	68.1
Sales and office occupations	33,461	61.1
Sales and related occupations	15,806	49.4
First-line supervisors of retail sales workers	3,366	44.6
First-line supervisors of non-retail sales workers	1,257	28.5
Cashiers	3,200	73.8
Counter and rental clerks	114	40.6
Parts salespersons	127	10.4
Retail salespersons	3,147	48.7
Advertising sales agents	221	50.4
Insurance sales agents	619	51.4
Securities, commodities, and financial services sales agents	231	31.8
Travel agents	79	85.5
Sales representatives, services, all other	516	30.0
Sales representatives, wholesale and manufacturing	1,273	27.6
Models, demonstrators, and product promoters	60	72.1
Real estate brokers and sales agents	1,072	56.2
Sales engineers	34	-
Telemarketers	58	65.3
Door-to-door sales workers, news and street vendors, and related workers	158	60.9
Sales and related workers, all other	275	48.4
Office and administrative support occupations	17,655	71.6
First-line supervisors of office and administrative support workers	1,450	71.7
Switchboard operators, including answering service	23	-
Telephone operators	30	-
Communications equipment operators, all other	9	-
Bill and account collectors	122	71.1

See footnotes at end of table.

Table 11. Employed people, by detailed occupation and gender, 2018 annual averages (Numbers in thousands)

Occupation	Total employed	Percent women
Billing and posting clerks	490	87.1
Bookkeeping, accounting, and auditing clerks	1,045	86.7
Gaming cage workers	8	-
Payroll and timekeeping clerks	121	89.8
Procurement clerks	31	-
Tellers	300	85.4
Financial clerks, all other	92	61.9
Brokerage clerks	4	-
Correspondence clerks	4	-
Court, municipal, and license clerks	83	76.5
Credit authorizers, checkers, and clerks	54	64.5
Customer service representatives	2,563	63.7
Eligibility interviewers, government programs	68	80.0
File clerks	161	76.8
Hotel, motel, and resort desk clerks	131	68.6
Interviewers, except eligibility and loan	152	81.6
Library assistants, clerical	103	78.0
Loan interviewers and clerks	117	80.8
New accounts clerks	23	-
Order clerks	78	49.1
Human resources assistants, except payroll and timekeeping	57	83.3
Receptionists and information clerks	1,324	90.5
Reservation and transportation ticket agents and travel clerks	128	59.4
Information and record clerks, all other	121	77.6
Cargo and freight agents	30	-
Couriers and messengers	293	21.1
Dispatchers	293	60.7
Meter readers, utilities	24	-
Postal service clerks	120	54.9
Postal service mail carriers	302	39.8
Postal service mail sorters, processors, and processing machine operators	58	56.6
Production, planning, and expediting clerks	269	54.0

See footnotes at end of table.

Table 11. Employed people, by detailed occupation and gender, 2018 annual averages (Numbers in thousands)

Occupation	Total employed	Percent women
Shipping, receiving, and traffic clerks	578	29.1
Stock clerks and order fillers	1,527	37.4
Weighers, measurers, checkers, and samplers, recordkeeping	56	38.9
Secretaries and administrative assistants	2,569	94.0
Computer operators	73	63.8
Data entry keyers	270	77.2
Word processors and typists	67	85.1
Desktop publishers	1	-
Insurance claims and policy processing clerks	244	82.5
Mail clerks and mail machine operators, except postal service	63	41.5
Office clerks, general	1,309	84.5
Office machine operators, except computer	24	-
Proofreaders and copy markers	11	-
Statistical assistants	40	-
Office and administrative support workers, all other	540	78.5
Natural resources, construction, and maintenance occupations	14,471	5.1
Farming, fishing, and forestry occupations	1,121	24.3
First-line supervisors of farming, fishing, and forestry workers	60	16.5
Agricultural inspectors	22	-
Animal breeders	5	-
Graders and sorters, agricultural products	85	57.8
Miscellaneous agricultural workers	833	23.4
Fishers and related fishing workers	39	-
Hunters and trappers	3	-
Forest and conservation workers	16	-
Logging workers	58	2.6
Construction and extraction occupations	8,338	3.4
First-line supervisors of construction trades and extraction workers	634	3.5
Boilermakers	20	-
Brickmasons, blockmasons, and stonemasons	143	1.9
Carpenters	1,375	2.2
Carpet, floor, and tile installers and finishers	164	1.9

See footnotes at end of table.

Table 11. Employed people, by detailed occupation and gender, 2018 annual averages (Numbers in thousands)

Occupation	Total employed	Percent women
Cement masons, concrete finishers, and terrazzo workers	50	.0
Construction laborers	2,110	3.7
Paving, surfacing, and tamping equipment operators	21	-
Pile-driver operators	1	-
Operating engineers and other construction equipment operators	342	2.0
Drywall installers, ceiling tile installers, and tapers	164	1.6
Electricians	887	2.4
Glaziers	45	-
Insulation workers	60	2.5
Painters, construction and maintenance	607	7.2
Paperhangers	5	-
Pipelayers, plumbers, pipefitters, and steamfitters	641	3.5
Plasterers and stucco masons	19	-
Reinforcing iron and rebar workers	3	-
Roofers	201	2.6
Sheet metal workers	147	2.8
Structural iron and steel workers	60	2.2
Solar photovoltaic installers	16	-
Helpers, construction trades	77	5.6
Construction and building inspectors	108	14.0
Elevator installers and repairers	25	-
Fence erectors	33	-
Hazardous materials removal workers	36	-
Highway maintenance workers	105	3.9
Rail-track laying and maintenance equipment operators	10	-
Septic tank servicers and sewer pipe cleaners	9	-
Miscellaneous construction and related workers	28	-
Derrick, rotary drill, and service unit operators, oil, gas, and mining	30	-
Earth drillers, except oil and gas	22	-
Explosives workers, ordnance handling experts, and blasters	12	-
Mining machine operators	65	4.9
Roof bolters, mining	1	-

See footnotes at end of table.

Table 11. Employed people, by detailed occupation and gender, 2018 annual averages (Numbers in thousands)

Occupation	Total employed	Percent women
Roustabouts, oil and gas	10	-
Helpers--extraction workers	2	-
Other extraction workers	49	-
Installation, maintenance, and repair occupations	5,012	3.7
First-line supervisors of mechanics, installers, and repairers	280	5.9
Computer, automated teller, and office machine repairers	185	13.7
Radio and telecommunications equipment installers and repairers	136	13.6
Avionics technicians	13	-
Electric motor, power tool, and related repairers	26	-
Electrical and electronics installers and repairers, transportation equipment	1	-
Electrical and electronics repairers, industrial and utility	11	-
Electronic equipment installers and repairers, motor vehicles	5	-
Electronic home entertainment equipment installers and repairers	38	-
Security and fire alarm systems installers	63	.7
Aircraft mechanics and service technicians	164	3.6
Automotive body and related repairers	152	1.8
Automotive glass installers and repairers	24	-
Automotive service technicians and mechanics	916	2.1
Bus and truck mechanics and diesel engine specialists	389	.9
Heavy vehicle and mobile equipment service technicians and mechanics	211	.8
Small engine mechanics	51	2.7
Miscellaneous vehicle and mobile equipment mechanics, installers, and repairers	93	2.8
Control and valve installers and repairers	20	-
Heating, air conditioning, and refrigeration mechanics and installers	472	1.4
Home appliance repairers	41	-
Industrial and refractory machinery mechanics	442	2.4
Maintenance and repair workers, general	507	3.5
Maintenance workers, machinery	25	-
Millwrights	46	-
Electrical power-line installers and repairers	137	4.1
Telecommunications line installers and repairers	210	3.9
Precision instrument and equipment repairers	65	13.2

See footnotes at end of table.

Table 11. Employed people, by detailed occupation and gender, 2018 annual averages (Numbers in thousands)

Occupation	Total employed	Percent women
Wind turbine service technicians	3	-
Coin, vending, and amusement machine servicers and repairers	36	-
Commercial divers	1	-
Locksmiths and safe repairers	34	-
Manufactured building and mobile home installers	7	-
Riggers	14	-
Signal and track switch repairers	14	-
Helpers--installation, maintenance, and repair workers	16	-
Other installation, maintenance, and repair workers	167	7.0
Production, transportation, and material moving occupations	18,539	23.1
Production occupations	8,621	28.8
First-line supervisors of production and operating workers	832	19.6
Aircraft structure, surfaces, rigging, and systems assemblers	5	-
Electrical, electronics, and electromechanical assemblers	124	49.2
Engine and other machine assemblers	10	-
Structural metal fabricators and fitters	33	-
Miscellaneous assemblers and fabricators	1,064	36.6
Bakers	219	61.1
Butchers and other meat, poultry, and fish processing workers	265	28.3
Food and tobacco roasting, baking, and drying machine operators and tenders	6	-
Food batchmakers	80	63.3
Food cooking machine operators and tenders	14	-
Food processing workers, all other	158	37.0
Computer control programmers and operators	107	9.7
Extruding and drawing machine setters, operators, and tenders, metal and plastic	14	-
Forging machine setters, operators, and tenders, metal and plastic	6	-
Rolling machine setters, operators, and tenders, metal and plastic	11	-
Cutting, punching, and press machine setters, operators, and tenders, metal and plastic	61	9.9
Drilling and boring machine tool setters, operators, and tenders, metal and plastic	3	-
Grinding, lapping, polishing, and buffing machine tool setters, operators, and tenders, metal and plastic	38	-
Lathe and turning machine tool setters, operators, and tenders, metal and plastic	8	-
Milling and planing machine setters, operators, and tenders, metal and plastic	3	-

See footnotes at end of table.

Table 11. Employed people, by detailed occupation and gender, 2018 annual averages (Numbers in thousands)

Occupation	Total employed	Percent women
Machinists	344	6.4
Metal furnace operators, tenders, pourers, and casters	20	-
Model makers and patternmakers, metal and plastic	6	-
Molders and molding machine setters, operators, and tenders, metal and plastic	40	-
Multiple machine tool setters, operators, and tenders, metal and plastic	5	-
Tool and die makers	50	5.7
Welding, soldering, and brazing workers	633	5.4
Heat treating equipment setters, operators, and tenders, metal and plastic	9	-
Layout workers, metal and plastic	9	-
Plating and coating machine setters, operators, and tenders, metal and plastic	17	-
Tool grinders, filers, and sharpeners	3	-
Metal workers and plastic workers, all other	373	18.3
Prepress technicians and workers	18	-
Printing press operators	164	22.7
Print binding and finishing workers	13	-
Laundry and dry-cleaning workers	143	71.5
Pressers, textile, garment, and related materials	36	-
Sewing machine operators	174	73.4
Shoe and leather workers and repairers	8	-
Shoe machine operators and tenders	4	-
Tailors, dressmakers, and sewers	85	75.1
Textile bleaching and dyeing machine operators and tenders	1	-
Textile cutting machine setters, operators, and tenders	6	-
Textile knitting and weaving machine setters, operators, and tenders	5	-
Textile winding, twisting, and drawing out machine setters, operators, and tenders	5	-
Extruding and forming machine setters, operators, and tenders, synthetic and glass fibers	0	-
Fabric and apparel patternmakers	3	-
Upholsterers	31	-
Textile, apparel, and furnishings workers, all other	16	-
Cabinetmakers and bench carpenters	65	6.5
Furniture finishers	20	-
Model makers and patternmakers, wood	0	-

See footnotes at end of table.

Table 11. Employed people, by detailed occupation and gender, 2018 annual averages (Numbers in thousands)

Occupation	Total employed	Percent women
Sawing machine setters, operators, and tenders, wood	37	-
Woodworking machine setters, operators, and tenders, except sawing	27	-
Woodworkers, all other	28	-
Power plant operators, distributors, and dispatchers	33	-
Stationary engineers and boiler operators	79	1.3
Water and wastewater treatment plant and system operators	101	7.2
Miscellaneous plant and system operators	38	-
Chemical processing machine setters, operators, and tenders	75	11.3
Crushing, grinding, polishing, mixing, and blending workers	79	9.1
Cutting workers	60	27.5
Extruding, forming, pressing, and compacting machine setters, operators, and tenders	22	-
Furnace, kiln, oven, drier, and kettle operators and tenders	25	-
Inspectors, testers, sorters, samplers, and weighers	807	36.6
Jewelers and precious stone and metal workers	38	-
Medical, dental, and ophthalmic laboratory technicians	87	54.2
Packaging and filling machine operators and tenders	277	55.8
Painting workers	165	9.4
Photographic process workers and processing machine operators	17	-
Semiconductor processors	1	-
Adhesive bonding machine operators and tenders	8	-
Cleaning, washing, and metal pickling equipment operators and tenders	9	-
Cooling and freezing equipment operators and tenders	4	-
Etchers and engravers	11	-
Molders, shapers, and casters, except metal and plastic	37	-
Paper goods machine setters, operators, and tenders	21	-
Tire builders	7	-
Helpers--production workers	53	31.8
Production workers, all other	1,107	29.5
Transportation and material moving occupations	9,918	18.1
Supervisors of transportation and material moving workers	217	23.2
Aircraft pilots and flight engineers	119	9.0
Air traffic controllers and airfield operations specialists	37	-

See footnotes at end of table.

Table 11. Employed people, by detailed occupation and gender, 2018 annual averages (Numbers in thousands)

Occupation	Total employed	Percent women
Flight attendants	104	74.9
Ambulance drivers and attendants, except emergency medical technicians	12	-
Bus drivers	599	43.8
Driver/sales workers and truck drivers	3,549	6.6
Taxi drivers and chauffeurs	777	18.0
Motor vehicle operators, all other	63	18.1
Locomotive engineers and operators	36	-
Railroad brake, signal, and switch operators	5	-
Railroad conductors and yardmasters	53	7.1
Subway, streetcar, and other rail transportation workers	15	-
Sailors and marine oilers	21	-
Ship and boat captains and operators	33	-
Ship engineers	6	-
Bridge and lock tenders	7	-
Parking lot attendants	87	9.7
Automotive and watercraft service attendants	102	20.5
Transportation inspectors	37	-
Transportation attendants, except flight attendants	40	-
Other transportation workers	24	-
Conveyor operators and tenders	2	-
Crane and tower operators	68	6.0
Dredge, excavating, and loading machine operators	24	-
Hoist and winch operators	10	-
Industrial truck and tractor operators	631	8.1
Cleaners of vehicles and equipment	329	15.2
Laborers and freight, stock, and material movers, hand	2,106	21.4
Machine feeders and offbearers	30	-
Packers and packagers, hand	607	54.5
Pumping station operators	16	-
Refuse and recyclable material collectors	91	14.5
Mine shuttle car operators	1	-
Tank car, truck, and ship loaders	8	-

See footnotes at end of table.

Machinery manufacturing	1,218	21.0
Agricultural implement manufacturing	114	26.6
Construction, and mining and oil and gas field machinery manufacturing	148	13.9
Commercial and service industry machinery manufacturing	71	28.7
Metalworking machinery manufacturing	128	14.7
Engine, turbine, and power transmission equipment manufacturing	49	-
Machinery manufacturing, n.e.c.	690	22.0

See footnotes at end of table.

Table 14. Employed people, by detailed industry and gender, 2018 annual averages (Numbers in thousands)

Industry	Total employed	Percent women
Not specified machinery manufacturing	17	-
Computers and electronic products manufacturing	1,096	29.2
Computer and peripheral equipment manufacturing	173	24.0
Communications, and audio and video equipment manufacturing	112	25.1
Navigational, measuring, electromedical, and control instruments manufacturing	206	33.1
Electronic component and product manufacturing, n.e.c.	605	30.1
Electrical equipment and appliances manufacturing	402	31.2
Household appliance manufacturing	74	36.4
Electrical lighting and electrical equipment manufacturing, and other electrical component manufacturing, n.e.c.	328	30.1
Transportation equipment manufacturing	2,528	23.8
Motor vehicles and motor vehicle equipment manufacturing	1,432	25.0
Aircraft and parts manufacturing	805	23.9
Aerospace product and parts manufacturing	51	21.3
Railroad rolling stock manufacturing	28	-
Ship and boat building	171	13.6
Other transportation equipment manufacturing	42	-
Wood products manufacturing	449	16.5
Sawmills and wood preservation	147	13.2
Veneer, plywood, and engineered wood products	34	-
Prefabricated wood buildings and mobile homes	38	-
Miscellaneous wood products	229	18.1
Furniture and related product manufacturing	421	25.1
Miscellaneous manufacturing	1,563	38.2
Medical equipment and supplies manufacturing	627	40.5
Sporting and athletic goods, and doll, toy and game manufacturing	120	41.4
Miscellaneous manufacturing, n.e.c.	533	37.9
Not specified manufacturing industries	283	32.6
Nondurable goods manufacturing	5,729	36.2
Food manufacturing	1,825	41.4
Animal food, grain, and oilseed milling	156	24.9
Sugar and confectionery products	88	46.1
Fruit and vegetable preserving and specialty food manufacturing	163	37.7

See footnotes at end of table.

Table 14. Employed people, by detailed industry and gender, 2018 annual averages (Numbers in thousands)

Industry	Total employed	Percent women
Dairy product manufacturing	176	25.3
Animal slaughtering and processing	512	39.1
Retail bakeries	248	69.1
Bakeries and tortilla manufacturing, except retail bakeries	202	44.4
Seafood and other miscellaneous foods, n.e.c.	206	40.6
Not specified food industries	73	34.7
Beverage and tobacco products manufacturing	318	26.4
Beverage manufacturing	301	27.1
Tobacco manufacturing	18	-
Textiles, apparel, and leather manufacturing	567	52.9
Fiber, yarn, and thread mills	11	-
Fabric mills, except knitting mills	90	40.0
Textile and fabric finishing and coating mills	16	-
Carpet and rug mills	71	34.0
Textile product mills, except carpet and rug	87	52.2
Knitting fabric mills, and apparel knitting mills	15	-
Cut and sew apparel manufacturing	215	66.5
Apparel accessories and other apparel manufacturing	11	-
Footwear manufacturing	26	-
Leather tanning and finishing and other allied products manufacturing	25	-
Paper manufacturing and printing	875	29.3
Pulp, paper, and paperboard mills	204	17.0
Paperboard container manufacturing	107	30.9
Miscellaneous paper and pulp products	71	19.6
Printing and related support activities	492	35.5
Petroleum and coal products manufacturing	193	16.0
Petroleum refining	163	14.8
Miscellaneous petroleum and coal products	29	-
Chemicals manufacturing	1,426	35.7
Resin, synthetic rubber and fibers, and filaments manufacturing	175	25.3
Agricultural chemical manufacturing	37	-
Pharmaceutical and medicine manufacturing	563	48.6

See footnotes at end of table.

Table 14. Employed people, by detailed industry and gender, 2018 annual averages (Numbers in thousands)

Industry	Total employed	Percent women
Paint, coating, and adhesive manufacturing	78	18.2
Soap, cleaning compound, and cosmetics manufacturing	149	43.9
Industrial and miscellaneous chemicals	424	23.6
Plastics and rubber products manufacturing	526	26.2
Plastics product manufacturing	376	27.7
Tire manufacturing	62	15.2
Rubber product, except tire, manufacturing	87	27.7
Wholesale and retail trade	20,270	44.7
Wholesale trade	3,671	28.5
Motor vehicle and motor vehicle parts and supplies merchant wholesalers	179	20.5
Furniture and home furnishing merchant wholesalers	70	34.0
Lumber and other construction materials merchant wholesalers	168	22.4
Professional and commercial equipment and supplies merchant wholesalers	331	34.7
Metals and minerals, except petroleum merchant wholesalers	49	-
Household appliances and electrical and electronic goods merchant wholesalers	221	27.5
Hardware, plumbing and heating equipment, and supplies merchant wholesalers	142	20.2
Machinery, equipment, and supplies merchant wholesalers	357	26.3
Recyclable material merchant wholesalers	107	18.4
Miscellaneous durable goods merchant wholesalers	72	36.5
Paper and paper products merchant wholesalers	48	-
Drugs, sundries, and chemical and allied products merchant wholesalers	223	48.9
Apparel, piece goods, and notions merchant wholesalers	95	46.4
Grocery and related product merchant wholesalers	887	24.3
Farm product raw material merchant wholesalers	64	24.4
Petroleum and petroleum products merchant wholesalers	137	16.3
Alcoholic beverages merchant wholesalers	115	17.9
Farm supplies merchant wholesalers	55	29.1
Miscellaneous nondurable goods merchant wholesalers	191	40.3
Wholesale electronic markets and agents and brokers	95	36.8
Not specified wholesale trade	66	33.0
Retail trade	16,599	48.3
Automobile dealers	1,362	19.5

2018	81.1	81.5	89.0	75.5	85.7

Note: The comparability of historical labor force data has been affected at various times by methodological and conceptual changes in the Current Population Survey (CPS). For an explanation, see the historical comparability section of the household data technical documentation provided at www.bls.gov/cps/documentation.htm#comp. Beginning in 2003, estimates for the groups shown (White, Black or African American, and Asian) include people who selected that race group only; people who selected more than one race group are not included. Prior to 2003, people who reported more than one race were included in the group they identified as the main race. Data for 2000 to 2002 are for the category Asians and Pacific Islanders. Starting in 2003, Asians constituted a separate category. For more information, see the historical comparability documentation. People whose ethnicity is identified as Hispanic or Latino may be of any race.

Dashes indicate that data for Asians were not tabulated prior to 2000.

Data exclude all self-employed people, both those with incorporated and unincorporated businesses.

Table 20. Wage and salary workers paid hourly rates with earnings at or below prevailing federal minimum wage, by selected characteristics, 2018 annual averages (Numbers in thousands)

Characteristic	Workers paid hourly rates				
	Total	Total at or below prevailing federal minimum wage			
		Total	Percentage of hourly paid workers	At prevailing federal minimum wage	Below prevailing federal minimum wage
Women	13,260	624	4.7	190	434
Men	6,895	341	4.9	122	219

[1] Estimates for the race groups--White, Black or African American, and Asian--do not sum to totals because data are not presented for all races. People whose ethnicity is identified as Hispanic or Latino may be of any race.
 [2] The distinction between full- and part-time workers is based on hours usually worked. These data will not sum to totals because full- or part-time status on the principal job is not identifiable for a small number of multiple jobholders. Full time is 35 hours or more per week; part time is less than 35 hours.
 Note: Data exclude all self-employed persons whether or not their businesses are incorporated.

Table 23. Work experience of the population, by gender and full- and part-time status, selected years, 1970–2017 (Percent distribution)

Year and gender	Population (in thousands)	Worked during the year		Percent distribution by work experience						
		Total (in thousands)	Percentage of population	Total	Usually work full time			Usually work part time		
					Total	50 to 52 weeks	1 to 49 weeks	Total	50 to 52 weeks	1 to 49 weeks
2015	122,110	85,518	70.0	100.0	85.6	73.9	11.7	14.4	7.0	7.4
2016	122,944	86,063	70.0	100.0	85.8	74.7	11.1	14.2	7.1	7.0
2017	124,331	87,147	70.1	100.0	86.6	75.3	11.3	13.4	6.7	6.7

Note: These data reflect work experience for the entire year.

The 2013 data in this report, collected in the 2014 ASEC, are based on fewer sample responses than in recent years. Approximately three-eighths of the 2014 CPS ASEC sample was used to test redesigned questions on income and health insurance coverage; this portion of the sample was not used to generate the estimates in this table.

[1] Number below the poverty level as a percentage of the total in the labor force for 27 or more weeks.

Note: These data reflect the earnings and work experience for the entire year. Estimates for the race groups shown (White, Black or African American, and Asian) do not sum to totals because data are not presented for all races.

People whose ethnicity is identified as Hispanic or Latino may be of any race. Dash indicates no data or data where labor force base is less than 80,000.

[1] Displaced workers are defined as workers who had 3 or more years of tenure on a job they had lost or left between January 2015 and December 2017 because of plant or company closings or relocations, insufficient work, or the abolishment of their positions or shifts.

Note: Estimates for the race groups shown (White, Black or African American, and Asian) do not sum to totals because data are not presented for all races. People whose ethnicity is identified as Hispanic or Latino may be of any race. Dash indicates no data or data that do not meet publication criteria (values not shown where base is less than 75,000).

[1] The native born are people who were born in the United States or one of its outlying areas, such as Puerto Rico or Guam, or who were born abroad of at least one parent who was a U.S. citizen.

[2] The foreign born are those residing in the United States who were not U.S. citizens at birth. That is, they were born outside the United States or one of its outlying areas, such as Puerto Rico or Guam, to parents who were not U.S. citizens. This group includes legally admitted immigrants, refugees, students, temporary workers, and undocumented immigrants. The survey data, however, do not separately identify the number of people in these categories.

Note: Veterans are men and women who served on active duty in the U.S. Armed Forces and were not on active duty at the time of the survey. Nonveterans never served on active duty in the U.S. Armed Forces. Veterans could have served anywhere in the world during these periods of service: Gulf War era II (September 2001-present), Gulf War era I (August 1990-August 2001), Vietnam era (August 1964-April 1975), Korean War (July 1950-January 1955), World War II (December 1941-December 1946), and other service periods (all other time periods). Veterans are counted in only one period of service, their most recent wartime period. Veterans who served in both a wartime period and any other service period are classified in the wartime period. Dash indicates no data or data that do not meet publication criteria (values not shown where base is less than 50,000).

Technical Notes

The estimates in this report were obtained from the Current Population Survey (CPS), a national monthly sample survey of approximately 60,000 eligible households that provides a wide range of information on the labor force, employment, and unemployment. The survey is conducted for the U.S. Bureau of Labor Statistics (BLS) by the U.S. Census Bureau, using a scientifically selected national sample with coverage in all 50 states and the District of Columbia.

Information in this report will be made available upon request to individuals with sensory impairments. Voice phone: (202) 691-5200. Federal Relay Service: 1-800-877-8339. Material in this report is in the public domain and may be reproduced without permission.

Concepts and definitions

Children. Data on children refer to one's own children under age 18 who live in the household. Included are sons, daughters, stepchildren, and adopted children. Not included are nieces, nephews, grandchildren, other related children, and all unrelated children living in the household.

Civilian labor force. This group is made up of all people classified as employed or unemployed.

Civilian labor force participation rate. This rate is the civilian labor force as a percentage of the civilian noninstitutional population.

Civilian noninstitutional population. Included are people 16 years of age and older residing in any of the 50 states or the District of Columbia who are not confined to institutions, such as nursing homes and prisons, and who are not on active duty in the Armed Forces.

Disability. The CPS uses a set of six questions to identify people with disabilities. The questions are about physical, mental, or emotional conditions that cause serious difficulty with daily activities. For each of the questions, interviewers ask the respondent whether anyone in the household has the condition described, and if the respondent replies "yes," he or she is then asked to identify everyone in the household who has the condition. People are classified as having a disability if there is a response of "yes" to any of these questions. More information, including the wording of the six questions used to identify people with a disability, is available at www.bls.gov/cps/demographics.htm#disability.

Displaced workers. Displaced workers are wage and salary workers 20 years of age and older who lost or left jobs because their plant or company closed or moved, there was insufficient work for them to do, or their position or shift was abolished. Data are presented for long-tenured displaced workers—those who had worked for their employer for 3 or more years at the time of displacement. All self-employed workers are excluded, both those with incorporated businesses and those with unincorporated businesses. Data are collected through a biennial supplement to the January CPS.

Employed people. Employed people are all those who, during the survey reference week, (a) did any work at all as paid employees; (b) worked in their own business, in a profession, or on their own farm; or (c) worked 15 or more hours as unpaid workers in a family member's business. People who were temporarily absent from their jobs or business because of illness, vacation, a labor dispute, or another reason also are counted as employed.

Employment-population ratio. This ratio is the number of employed as a percentage of the population.

Family. A family is a group of two or more people residing together who are related by birth, marriage, or adoption; all such individuals are considered members of one family. The count of families is for “primary” families only. A primary family consists of a householder and all other people related to and residing with the householder. Subfamilies are excluded from the count of families. A subfamily is a family that does not maintain their own household, such as a married couple living in the home of a friend and their family. In this example, the report would include only one family (the householder’s or primary family), not two. Families include those with and without children under 18 years. Families are further categorized as follows:

- *Married-couple families* refer to opposite-sex married couples residing together and any of their family members residing in the household.
- *Families maintained by women or men* are made up of householders residing with one or more family members, but not an opposite-sex spouse. The household may or may not include a same-sex spouse or an unmarried domestic partner of either sex.

Foreign born. People residing in the United States who were not U.S. citizens at birth. That is, they were born outside the United States or one of its outlying areas (such as Puerto Rico or Guam) to parents who were not U.S. citizens. The foreign-born population includes legally admitted immigrants; refugees; temporary residents, such as students and temporary workers; and undocumented immigrants. The survey data, however, do not separately identify the number of people in these categories. The native born are people born in the United States or one of its outlying areas or who were born abroad to at least one parent who was a U.S. citizen.

Hispanic or Latino ethnicity. This refers to people who identified themselves in the enumeration process as being Hispanic, Latino, or Spanish. People whose ethnicity is identified as Hispanic or Latino may be of any race; estimates for the race groups include Hispanics. Information on the changes in questions on race and Hispanic ethnicity in 2003 is available at <https://www.bls.gov/cps/rvcps03.pdf>.

Hours at work. These are the actual hours worked (at all jobs) during the survey reference week, which is generally the week containing the 12th of the month. For example, people who normally work 40 hours a week but were off for 8 hours during the Columbus Day holiday would be reported as working 32 hours, even if they were paid for the holiday. (See related information on usual full- or part-time status.)

Householder. The householder is the family reference person. This is the person (or one of the people) in whose name the housing unit is owned or rented. Other household members are defined as family members based on their relationship to the householder.

Minimum wage. The estimates of the number of workers with earnings at or below the federal minimum wage pertain only to workers who are paid hourly rates. Salaried workers and other workers who are not paid by the hour are not included, even though some have earnings that, if converted to hourly rates, would be at or below the minimum wage. Consequently, the estimates presented in this report likely understate the actual number of workers with hourly earnings at or below the federal minimum wage. BLS does not routinely estimate the hourly earnings of workers not paid by the hour because of data quality concerns associated with such an estimation process.

The prevailing federal minimum wage is \$7.25, effective July 24, 2009. The presence of workers with hourly earnings below the minimum wage does not necessarily indicate violations of the Fair Labor Standards Act (FLSA), because there are a number of exemptions to the minimum-wage provisions of the law. In addition, some workers might have

rounded their hourly earnings in response to survey questions. As a result, some might have reported hourly earnings below the minimum wage when, in fact, they earned the minimum wage or higher.

A number of states have established minimum wage rates that exceed the federal level. (Information on state minimum wage laws is available at www.dol.gov/whd/minwage/america.htm.) Users should be cautious about comparing state estimates in this report because of differing statutory minimum wages. It also should be noted that the CPS sample is based on residence (where workers live), which may or may not be located in the same state in which they work. In addition, the degree of sampling error may be quite large for some state estimates.

Not in the labor force. Included in this group are all people in the civilian noninstitutional population who are neither employed nor unemployed.

Occupation and industry. Occupation refers to the type of job or work that a person does, and industry refers to the business activity of a person's employer or company. People with two or more jobs are classified as being in the occupation and industry in which they worked the greatest number of hours. The CPS uses the Census Occupational Classification, based on the 2010 Standard Occupation Classification (SOC), and the 2012 census industry classification, derived from the 2012 North American Industry Classification System (NAICS). Additional information about these classifications is available online at www.bls.gov/cps/cpsoccind.htm.

Poverty classification. Poverty statistics presented in this report are based on definitions developed by the Social Security Administration in 1964 and revised by federal interagency committees in 1969 and 1981. These definitions originally were based on the Department of Agriculture's Economy Food Plan and reflected the different consumption requirements of families, predicated on the basis of factors such as family size and the number of children under 18 years of age.

The actual poverty thresholds vary because of the makeup of the family. In 2017, the weighted average poverty threshold for a family of four was \$24,858; for a family of nine or more people, the threshold was \$50,861; and for one person (unrelated individual), it was \$12,488. Poverty thresholds are updated each year to reflect changes in the Consumer Price Index for All Urban Consumers (CPI-U). Thresholds do not vary geographically. (For more information, see "Income and Poverty in the United States: 2017," <https://www.census.gov/library/publications/2018/demo/p60-263.html>.)

Race. In accordance with the Office of Management and Budget standards, White, Black or African American, and Asian are terms used to describe a person's race. Beginning in 2003, people in these categories are those who selected that race group only. Those who identify multiple race groups are categorized as people of Two or More Races. More information on the 2003 changes to questions on race is available at www.bls.gov/cps/rvcps03.pdf. Data for other race groups—American Indians and Alaska Natives, and Native Hawaiians and Other Pacific Islanders—and for people of Two or More Races are included in totals but not separately identified in this report.

Self-employed workers. Self-employed workers are those who work for profit or fees in their own business, in a profession, in a trade, or on a farm. The unincorporated self-employed are included in the self-employed category.

Self-employed people whose businesses are incorporated are included with wage and salary workers, unless otherwise specified.

Tenure. Employee tenure is a measure of how long wage and salary workers had been with their current employer at the time of the survey. Tenure is presented in median years; the median is the point at which half of all workers had more tenure and half had less. Data refer to the sole or principal job of full- and part-time workers. All self-employed workers are excluded, both those with incorporated businesses and those with unincorporated businesses. The data are collected through a biennial supplement to the January CPS.

Unemployed. The unemployed are people who had no employment during the survey reference week, were available for work (except in the case of temporary illness), and had made specific efforts to find employment sometime during the 4-week period ending with the survey reference week. People on temporary layoff do not need to look for work to be classified as unemployed.

Unemployment rate. This rate is the number of unemployed people as a percentage of the civilian labor force.

Union membership. Union membership refers to members of a labor union or of an employee association similar to a union. The data are tabulated from one-quarter of the CPS monthly sample and are limited to wage and salary workers. All self-employed workers are excluded, both those with incorporated businesses and those with unincorporated businesses.

Usual full- or part-time status. To differentiate a person's normal schedule from his or her activity during the survey reference week, BLS classifies people as either full- or part-time workers based on the number of hours they usually work per week, regardless of the number of hours worked in the reference week. Full-time workers are those who usually work 35 or more hours per week (at all jobs combined). Part-time workers are those who usually work less than 35 hours per week (at all jobs).

Usual weekly earnings. Data on usual weekly earnings represent earnings before taxes and other deductions, and include any overtime pay, commissions, and tips usually received (at the main job in the case of multiple jobholders). Earnings reported on a basis other than weekly (for example, annual, monthly, or hourly) are converted to weekly. The term "usual" is as perceived by the respondent. If the respondent asks for a definition of "usual," interviewers are instructed to define the term as "more than half the weeks worked during the past 4 or 5 months." Data refer to the sole or primary job of wage and salary workers (excluding all self-employed people, regardless of whether or not their businesses were incorporated) and are tabulated from one-quarter of the CPS monthly sample.

Earnings estimates are presented as median usual weekly earnings of full-time wage and salary workers. The median is the point at which half of all workers had higher earnings and half had lower earnings.

Veterans. Veterans are men and women 18 years or older who previously served on active duty in the U.S. Armed Forces and who were civilians at the time they were surveyed. People who are on active duty at the time of the survey are outside the scope of the survey and thus not in the estimates shown here. Nonveterans are men and women who never served on active duty in the U.S. Armed Forces. Veteran status is obtained from responses to the question, "Did you ever serve on active duty in the U.S. Armed Forces?"

Wage and salary workers. These are workers who receive wages, salaries, commissions, tips, payment in kind, or piece rates. The group includes employees in the private and the public sectors. This group also generally includes the incorporated self-employed because, legally, they are paid employees of a corporation. (Data on union membership,

earnings, tenure, and displacement of wage and salary workers exclude all self-employed workers, both those with incorporated businesses and those with unincorporated businesses.)

Work experience. These data reflect work activity during the calendar year and are obtained from the Annual Social and Economic Supplement (ASEC) to the CPS. Estimates of people who worked are based on “yes” responses to the following questions in the ASEC: “Did you work at a job or business at any time during [the survey reference year]?” or “Did you do any temporary, part-time, or seasonal work even for a few days during [the survey reference year]?” Because the reference period is a full year, the number of people with some employment exceeds the level for any given month, which is based on a 1-week reference period, and the corresponding annual averages of monthly estimates.

Workers paid by the hour. These are wage and salary workers paid at an hourly rate on their main job. Historically, workers paid an hourly wage have made up approximately three-fifths of all wage and salary workers.

Working poor. The working poor are people who spent at least 27 weeks in the labor force (that is, working or looking for work) but whose incomes still fell below the official poverty level.

Reliability of the estimates

Statistics based on the CPS are subject to both sampling and nonsampling error. When a sample, rather than an entire population, is surveyed, there is a chance that the sample estimates may differ from the true population values they represent. There are two reasons this occurs: sampling error and nonsampling error. Sampling error occurs because samples differ by chance. The sampling error variability is measured by the standard error of the estimate. There is about a 90-percent chance, or level of confidence, that an estimate based on a sample will differ by no more than 1.6 standard errors from the true population value because of sampling error. BLS analyses are generally conducted at the 90-percent level of confidence.

All other types of error are referred to as nonsampling error. Nonsampling error can occur for many reasons, including the failure to sample a segment of the population, inability to obtain information for all respondents in the sample, inability or unwillingness of respondents to provide correct information, and errors made in the collection or processing of data. More information on the reliability of data from the CPS and on estimating standard errors is available at www.bls.gov/cps/documentation.htm#reliability.
