NOTE: State and Area data are currently estimated from 2010 benchmark levels. When more recent benchmark data are introduced with the release of January 2012 estimates, unadjusted data from April 2010 are subject to change. Area definitions are based on Office of Management and Budget Bulletin No. 10-02, dated

December 1, 2009, and available at [www.bls.gov/iau/lausmsa.htm](http://www.bls.gov/iau/lausmsa.htm) and in the May issue of *Employment and Earnings*. Areas in the six New England states are Metropolitan New England City and Town Areas (NECTAs), while areas in other states are county-based. Some metropolitan areas lie in two or more states. They are listed under the state that appears first in their titles. Some divisions lie in more than one state, and some, like Wilmington, DE, are totally outside the states under which their metropolitan areas are listed.
