(SOC)—OMB's Final Decisions; Notice**

OFFICE OF MANAGEMENT AND BUDGET

2010 Standard Occupational Classification (SOC)—OMB's Final Decisions

AGENCY: Office of Management and Budget, Executive Office of the President.

ACTION: Notice of the Office of Management and Budget's Final Decisions for the 2010 Standard Occupational Classification.

SUMMARY: Under the authority of the Budget and Accounting Procedures Act of 1950 (31 U.S.C. 1104(d)) and the Paperwork Reduction Act of 1995 (44 U.S.C. 3504(e)), the Office of Management and Budget (OMB) is presenting in this notice its final decisions for revising the 2000 Standard Occupational Classification (SOC) for 2010.

The SOC is designed to reflect the current occupational structure of the United States; it classifies all occupations in which work is performed for pay or profit. The SOC covers all jobs in the national economy, including occupations in the public, private, and military sectors. All Federal agencies that publish occupational data for statistical purposes are required to use the SOC; State and local government agencies are strongly encouraged to use this national system to promote a common language for categorizing and analyzing occupations.

In two prior **Federal Register** notices regarding the 2010 SOC (May 16, 2006, 71 FR 28536–28538; and May 22, 2008, 73 FR 29930–29939), OMB and its interagency Standard Occupational Classification Policy Committee (SOCPC) requested comment on the revision process, classification principles and guidelines, corrections to the *2000 SOC Manual*, the intention to retain the 2000 SOC Major Group structure, and changes to the existing occupations. OMB, in conjunction with the SOCPC, reviewed and carefully considered the comments received in response to these notices in the process of making its final decisions presented in this notice. Based on these final decisions, OMB has requested that the SOCPC prepare the *2010 Standard Occupational Classification Manual* for publication. A complete crosswalk between the 2000 and the 2010 SOC will be available online after publication of the *2010 SOC Manual*. Committee members have completed definitions and agencies with occupational classification systems are developing

crosswalks from their existing systems to the 2010 SOC.

In comparison to the 2000 SOC, the 2010 SOC realized a net gain of 19 detailed occupations, 12 broad occupations, and 1 minor group. The number of major groups is unchanged. The 2010 SOC system contains 840 detailed occupations, aggregated into 461 broad occupations. In turn, the SOC combines these 461 broad occupations into 97 minor groups and 23 major groups. More than 400 of the 840 detailed occupations in the 2010 SOC structure remained the same as in 2000, and over 300 others required only editing changes. Therefore, no substantive changes occurred in occupational coverage for about 4 out of 5 detailed occupations in the 2010 SOC.

As an indicator of the scope of changes to the structure of the SOC, 8 detailed occupations moved from one major group in the 2000 SOC to another in the 2010 SOC. Three occupations were placed in the major group 13–0000 Business and Financial Operations Occupations, including “Farm Labor Contractors” (13–1074)—previously classified in major group 45–0000 Farming, Fishing, and Forestry Occupations—and “Fundraisers” (13–1131)—previously classified in major group 41–0000 Sales and Related Occupations. Workers in “Market Research Analysts and Marketing Specialists” (13–1161) were previously classified in multiple SOC occupations including in “Market Research Analysts” in major group 19–0000 Life, Physical, and Social Science Occupations and in “Public Relations Specialists” in major group 27–0000 Arts, Design, Entertainment, Sports, and Media Occupations. Two occupations moved into the major group 53–0000 Transportation and Material Moving Occupations, both from major group 39–0000 Personal Care and Service Occupations. These were “Flight Attendants” (53–2031) and “Transportation Attendants, Except Flight Attendants” (53–6061). Workers in the newly created “Morticians, Undertakers, and Funeral Directors” (39–4031) were previously classified with “Funeral Directors” (11–9061) in the major group 11–0000 Management Occupations. Workers in another occupation new to the 2010 SOC, “Solar Photovoltaic Installers” (47–2231) were previously classified in multiple SOC occupations including two in major group 49–0000 Installation, Maintenance, and Repair Occupations, “Heating, Air Conditioning, and Refrigeration Mechanics and Installers” (49–9021) and “Installation, Maintenance, and Repair Workers, All

Other” (49–9099). Lastly, the detailed occupation “Emergency Management Directors” (11–9161) was previously classified in major group 13–0000 Business and Financial Operations Occupations, under the title “Emergency Management Specialists.”

Future activities: To ensure that the successful efforts of the SOCPC continue and that the SOC reflects the structure of the changing workforce, the SOCPC will continue its service as a standing committee. The SOCPC will meet periodically to monitor the implementation of the 2010 SOC across Federal agencies. This consultation will include regularly scheduled interagency communication to ensure a smooth transition to the 2010 SOC. The SOCPC will also perform SOC maintenance functions, such as recommending clarifications of the SOC occupational definitions, placement of new occupations within the existing structure, and updating title files.

The next major review and revision of the SOC is expected to begin in 2013, in preparation for a 2018 SOC. The intent of this revision schedule is to minimize disruption to data providers, producers, and users by promoting simultaneous adoption of revised occupational and industry classification systems for those data series that use both. Given the multiple interdependent programs that rely on the SOC, this is best accomplished by timing revisions of the SOC for the years following North American Industry Classification System (NAICS) revisions, which occur for years ending in 2 and 7. The next such year is 2018, which has the additional benefit of coinciding with the beginning year of the American Community Survey five-year set of surveys that bracket the 2020 Decennial Census. Thus, OMB intends to consider revisions of the SOC for 2018 and every 10 years thereafter.

Appendices: This notice includes three appendices in the **SUPPLEMENTARY INFORMATION** section below. Appendix A presents the adopted changes to the SOC Classification Principles. Appendix B provides a preliminary crosswalk between the occupation codes in the 2000 SOC and the revised codes for the 2010 SOC. Appendix C provides a preliminary crosswalk between the revised codes for the 2010 SOC and the 2000 SOC. Appendices B and C show only new occupations and occupations where a change was made to a title or code. The complete 2010 SOC structure is available on the Bureau of Labor Statistics Web site at <http://www.bls.gov/soc/home.htm>.

Electronic Availability: This document is available on the Internet

from the Bureau of Labor Statistics at <https://www.bls.gov/soc/home.htm>. This Web page contains links to previous SOC **Federal Register** notices and related documents, as well as the full 2010 SOC structure. To obtain this notice via e-mail, please send a message requesting the OMB SOC final decisions **Federal Register** notice to soc@bls.gov. After publication of the manual, inquiries about the definitions for particular occupations or requests for electronic copies of the SOC structure that cannot be satisfied by use of the Web site should be addressed to Theresa Cosca, Standard Occupational Classification Policy Committee, U.S. Bureau of Labor Statistics, Room 2135, Washington, DC 20212; e-mail: soc@bls.gov; telephone number: (202) 691-6500; fax number: (202) 691-6444.

DATES: Publication of the *2010 Standard Occupational Classification Manual* is planned to occur by the end of 2009. Information on how to purchase a manual will be available at <http://www.bls.gov/soc/home.htm>. Federal statistical agencies will begin using the 2010 SOC for occupational data they publish for reference years beginning on or after January 1, 2010. The 2010 SOC was designed and developed solely for statistical purposes. Use of the SOC for nonstatistical purposes (e.g., for administrative, regulatory, or taxation functions) will be determined and supported by the agency or agencies that have chosen to do so. Readers interested in the effective dates for the use of the 2010 SOC for nonstatistical purposes should contact the relevant agency to determine the agency's plans, if any, for a transition from the 2000 SOC to the 2010 SOC.

SUPPLEMENTARY INFORMATION:

I. Purpose and History of the SOC

The Standard Occupational Classification (SOC) system is used by

Federal statistical agencies to classify workers and jobs into occupational categories for the purpose of collecting, tabulating, analyzing, or disseminating data.

The SOC reflects the current occupational structure of the United States; it classifies all occupations in which work is performed for pay or profit. The SOC covers all jobs in the national economy, including occupations in the public, private, and military sectors. All Federal agencies that publish occupational data for statistical purposes are required to use the SOC in order to increase data comparability. State and local government agencies are strongly encouraged to use this national system to promote a common language for categorizing and analyzing occupations.

The SOC Revision for 2010

In 2005, the Office of Management and Budget met with the Standard Occupational Classification Policy Committee (SOCPC) to plan for the 2010 SOC revision. The SOCPC includes representatives from the Department of Labor's Bureau of Labor Statistics and Employment and Training Administration, the Department of Commerce's Census Bureau, the Department of Defense's Defense Manpower Data Center, the Department of Education, the Department of Health and Human Services, the Equal Employment Opportunity Commission, the National Science Foundation, the Office of Personnel Management, and, *ex officio*, the Office of Management and Budget.

To initiate the formal 2010 SOC revision process, OMB and the SOCPC requested public comment in a May 16, 2006, **Federal Register** notice (71 FR 28536) on: (1) The Standard Occupational Classification principles, (2) corrections to the *2000 SOC Manual*, (3) the intention to retain the current SOC Major Group structure, (4) changes to the existing detailed occupations, and (5) new detailed occupations to be added to the revised 2010 SOC. To carry out the bulk of the revision effort, the committee created six work groups to examine occupations in the following high-level aggregations of SOC major groups: Management, Professional, and Related Occupations (codes 11-0000 through 29-0000); Service Occupations (codes 31-0000 through 39-0000); Sales and Office Occupations (codes 41-0000 through 43-0000); Natural Resources, Construction, and Maintenance Occupations (codes 45-0000 through 49-0000); Production, Transportation, and Material Moving Occupations (codes 51-0000 through 53-0000) and

Military Specific Occupations (code 55-0000).

The work groups were charged with reviewing the hundreds of comments received in response to the May 16, 2006, **Federal Register** notice and providing recommendations to the SOCPC. Guided by the classification principles, the SOCPC reviewed the recommendations from the work groups and reached decisions by consensus. Those recommendations were published in a subsequent **Federal Register** notice published on May 22, 2008 (73 FR 29930).

In the May 22, 2008, **Federal Register** notice (73 FR 29930), OMB and the SOCPC requested public comment on (1) The SOC Classification Principles and SOC Coding Guidelines recommended by the SOCPC; (2) the SOCPC's recommended changes to titles and codes of occupations from the 2000 SOC; (3) the SOCPC's recommended changes to the hierarchical structure of the SOC, including changes to major, minor, broad, and detailed groups and occupations; and (4) the titles, placement, and codes of new occupations that the SOCPC recommended adding to the revised 2010 SOC.

II. Significant Changes and Responses to Comments

Significant Changes in the 2010 SOC

In response to the May 22, 2008, **Federal Register** notice, OMB and the SOCPC received over 1,200 public comments. OMB and the SOCPC considered all comments and made many changes to the structure that was presented in the May 22, 2008 notice. Discussions of the changes to the Classification Principles and the changes by major group are provided below. The changes to the hierarchical structure and numbering system are shown in Appendices B and C. Rationales for recommending changes in response to specific comments are provided in conjunction with this **Federal Register** notice.

Two changes to the SOC Classification Principles were proposed in the May 22, 2008, **Federal Register** notice. Classification Principle 3 now clarifies that workers in management occupations may also supervise other workers. A new Classification Principle 5 was created to clarify that workers in Major Group 31-0000 Healthcare Support Occupations are usually supervised by workers in Major Group 29-0000 Healthcare Practitioners and Technical Occupations. The *2010 Standard Occupational Classification Manual* will also include Coding

Guidelines as presented in the May 22, 2008, **Federal Register** notice.

In the Management Occupations major group, the definition of “Administrative Services Managers” (11–3011) was modified.

In the Business and Financial Operations Occupations major group, the title and definition of “Labor Relations Specialists” (13–1075, formerly 13–1079 in the structure presented in the May 22, 2008, **Federal Register** notice) were modified. Responses to Comments

OMB, in conjunction with the SOCP, received and reviewed over 1,200 public comments on the information presented in the May 22, 2008, **Federal Register** notice. Each individual comment received a unique docket number when conveyed to the SOCP secretariat at the Bureau of Labor Statistics. Dockets providing the same or essentially similar comments or suggestions were reviewed simultaneously by the SOCP. In total, 202 unique issues were identified in commentors’ correspondence. A full list of the responses to the comments received in response to the May 22, 2008, **Federal Register** notice will be provided at <https://www.bls.gov/soc/home.htm>. Selected topics are also discussed below.

In some cases, OMB’s SOCP recommended changing the 2010 SOC title to more clearly describe the existing content of an occupation. Title changes did not necessarily alter occupational coverage, but rather refined how occupations are described. For example, the SOCP recommended accepting the suggestion to change the title of “Radiologic Technologists and Technicians” (29–2034) to “Radiologic Technologists.”

The SOCP frequently found that the work performed by a proposed occupation was already covered in the definition of an existing SOC occupation. For example, the SOCP did not recommend accepting the request for a new detailed occupation, “Clinical Nurse Specialists.” The SOCP researched the topic and determined that even though education for Clinical Nurse Specialists is different from that of Registered Nurses, the tasks of Clinical Nurse Specialists are not sufficiently unique from those of Registered Nurses who “assess patient health problems and needs, develop and implement nursing care plans, and maintain medical records.”

The SOCP carefully analyzed over 80 unique suggestions regarding “green” occupations and considered these recommendations from the perspective of the classification principles of the SOC. In many cases, the work performed in the “green” job was identical or similar to work performed in existing SOC occupations. For example, the work performed by a “Sustainable Landscape Architect” is already included in the SOC definition for “Landscape Architects” (17–1012). The SOCP did recommend adding “Wind Turbine Service Technicians” (49–9081) and “Solar Photovoltaic Installers” (47–2231) to the revised 2010 SOC. Workers in both of these occupations perform tasks that are sufficiently distinct from tasks in existing SOC occupations, and analysis of reports provided by the U.S. Department of Energy and the California Employment Development Department, Labor Market Information Division provided evidence supporting the collectability of data on these proposed occupations.

In cases involving requests for occupations already covered in the existing SOC, the SOCP often altered definitions and titles of existing SOC occupations to clarify where the workers specified in a particular comment should be classified. One example involves the many requests the SOCP received to add one or more metrology-related occupations. The SOCP’s research found that the

number of workers performing metrology and calibration tasks as their primary activity is not substantial enough to support new detailed occupations, and that metrology occupations are dispersed across many industries. Although there is no minimum required employment number, from a practical standpoint, occupations must be large enough to collect and publish at national, regional, State, and local levels. The current definitions of Engineers and Engineering Technicians meet those “publishability” goals. In contrast, metrology and calibration tasks may be performed by workers in several Engineering and Engineering Technician occupations, and calibrating is often a task performed in conjunction with other tasks. Therefore the definitions and titles for various engineers, engineering technicians, and production workers were modified to clarify coverage of metrology and calibration tasks.

In the May 22, 2008, **Federal Register** notice, the SOCP proposed expanding the occupation, “Health Educator” to include “Community Health Workers.” OMB received multiple comments from individuals and associations expressing concern over the differences in work performed, skills, and education and training between these two occupations. The SOCP concurred with the commentors and recommended two separate detailed occupations for “Community Health Workers” (21–1094) and “Health Educators” (21–1091) in the 2010 SOC. The work performed in these occupations is sufficiently distinct. Health Educators collect and analyze data, as well as plan, implement, monitor, evaluate, and manage health education programs. Community Health Workers conduct outreach for medical personnel or health organizations and may provide information on available resources.

OMB received multiple comments requesting the addition of “Medical Staff Services Professionals” as a new detailed occupation within the major group 11–0000 Management Occupations. The SOCP did not accept this recommendation because it violates Classification Principles 2 and 3. As explained in Classification Principle 2, the organization of the SOC is determined by a focus on work performed. The commentors describe specialized functions or tasks performed in this proposed occupation that are sufficiently covered in existing human resources and compliance occupations. Classification Principle 3 excludes workers in this proposed occupation from Major Group 11–0000 because

management occupations “primarily engage in planning and directing.”

Multiple commentors requested moving “Dental Hygienists” (29–2021) from the minor group 29–2000 Health Technologists and Technicians to the minor group 29–1000 Health Diagnosing and Treating Practitioners. Commentors noted that in some States, dental hygienists can practice independently and can make initial patient diagnoses without supervision by dentists. The SOCPC did not accept this recommendation because the lack of uniformity across various State and local jurisdictions would prevent consistent occupational classification. In addition, SOC definitions describe unique tasks all workers in an occupation must perform in order to be classified in that occupation. Expanding definitions to include additional tasks performed by only some of the workers in an occupation restricts inclusion in that occupation.

III. Next Steps in the Process

Future revisions. The next major review and revision of the SOC is expected to begin in 2013, in preparation for a 2018 SOC. The SOCPC recognizes the many advantages to coordinating implementation of SOC revisions with North American Industry Classification System (NAICS) revisions. The intent of this coordination is to minimize disruption to data providers, producers, and users by promoting simultaneous adoption of revised occupational and industry classification systems. Given the multiple interdependent programs that rely on the SOC, this is best accomplished by timing SOC revisions for the year following NAICS revisions. NAICS revisions occur in years ending in 2 and 7. Thus, OMB intends to consider revisions of the SOC for 2018 and every 10 years thereafter. In between revisions, the SOCPC will meet periodically to perform SOC maintenance functions and to monitor and help coordinate implementation of the 2010 SOC across Federal agencies.

Direct Match Title File. The SOCPC will continue to consult with OMB after publication of the 2010 SOC Manual, particularly to consider new and emerging occupations and additional titles for the newly created Direct Match Title File. The Direct Match Title File lists associated job titles for many

detailed SOC occupations. These titles are all one-to-one matches with a single SOC occupation. This means that the job title listed should be classified under that particular SOC code, and it can be used only for that particular SOC code. For example a “Cardiologist” would always be classified in “Physicians and Surgeons, All Other” (29–1079) and excluded from any other SOC code. All Federal agencies using the SOC will adopt the Direct Match Title File, although some may maintain separate program-specific title files. The Direct Match Title File will allow data users to compare occupational information for these job titles across Federal statistical agencies. It is expected that the Direct Match Title File will be available on the SOC Web site in the first half of 2009 at <http://www.bls.gov/soc>.

Acting Administrator, Office of Information and Regulatory Affairs.

Appendix A: Classification Principles

OMB has adopted two changes to the SOC Classification Principles presented in the May 22, 2008, **Federal Register** notice. In response to a comment, Classification Principle 5 was created to clarify placement of supervisors for workers in Major Group 31–0000 in the revised 2010 SOC. Therefore, Classification Principles 5 through 8, as presented in the May 22, 2008 **Federal Register** notice, were renumbered. In addition, a sentence was added to Classification Principle 3 to clarify that duties of workers in management occupations may include supervision. The final 2010 SOC Classification Principles are as follows [italics indicate changes to content]:

The SOC Classification Principles form the basis on which the SOC system is structured.

1. The SOC covers all occupations in which work is performed for pay or profit, including work performed in family-operated enterprises by family members who are not directly compensated. It excludes occupations unique to volunteers. Each occupation is assigned to only one occupational category at the lowest level of the classification.

2. Occupations are classified based on work performed and, in some cases, on the skills, education, and/or training needed to perform the work at a competent level.

3. Workers primarily engaged in planning and directing are classified in management occupations in Major Group 11–0000. *Duties of these workers may include supervision.*

4. Supervisors of workers in Major Groups 13–0000 through 29–0000 usually have work

experience and perform activities similar to those of the workers they supervise, and therefore are classified with the workers they supervise.

5. *Workers in Major Group 31–0000 Healthcare Support Occupations assist and are usually supervised by workers in Major Group 29–0000 Healthcare Practitioners and Technical Occupations. Therefore, there are no first-line supervisor occupations in Major Group 31–0000.*

6. Workers in Major Groups 33–0000 through 53–0000 whose primary duty is supervising are classified in the appropriate first-line supervisor category because their work activities are distinct from those of the workers they supervise.

7. Apprentices and trainees are classified with the occupations for which they are being trained, while helpers and aides are classified separately because they are not in training for the occupation they are helping.

8. If an occupation is not included as a distinct detailed occupation in the structure, it is classified in an appropriate “All Other,” or residual, occupation. “All Other” occupations are placed in the structure when it is determined that the detailed occupations comprising a broad occupation group do not account for all of the workers in the group. These occupations appear as the last occupation in the group with a code ending in “9” and are identified in their title by having “All Other” appear at the end.

9. The U.S. Bureau of Labor Statistics and the U.S. Census Bureau are charged with collecting and reporting data on total U.S. employment across the full spectrum of SOC major groups. Thus, for a detailed occupation to be included in the SOC, either the Bureau of Labor Statistics or the Census Bureau must be able to collect and report data on that occupation.

Appendix B: 2000 SOC to 2010 SOC

Appendix B is a chart listing every detailed occupation from the 2000 SOC that has been revised or replaced, with the preliminary corresponding new code(s) and title(s) appearing in the second column, including changes to only the code or title. An asterisk (*) after the occupation code and title in the second column means that the occupation in the first column makes up only part of the occupation in the second column; that is, the starred 2010 SOC occupation has been created from multiple old codes. Each occupation with the (*) notation appears multiple times in the chart.

A new occupation may have been created by breaking out a group of workers previously classified in a 2000 SOC occupation, but the new occupation may not completely replace the 2000 SOC occupation. In such cases, the 2000 occupation will indicate in italics which group has been removed to create a new occupation.

APPENDIX C: 2010 SOC TO 2000 SOC

Appendix C is a chart listing every new or revised detailed occupation for the 2010 SOC. The preliminary corresponding 2000 code(s) and title(s) appear in the second column, including changes to only the code or title. An asterisk (*) after the occupation code and title in the second column means that the occupation in the first column makes

up only part of the occupation in the second column; that is, the asterisked 2000 SOC occupation has been divided into multiple new occupations. Each occupation with the (*) notation appears multiple times in the chart.

A new detailed occupation may have been created by breaking out a group of workers previously classified in a 2000 SOC occupation, but the new occupation does not

completely replace the 2000 SOC occupation. In this case, the 2000 occupation will indicate in italics which group has been removed to create a new occupation. To aid the reader with the hierarchical location of the change, where a detailed occupation has been added or removed, the major group, minor group, and broad occupation codes for that occupation are also listed.
